# Believe Poem

My belief is to follow the stars and moon  
and i believe my soul will go there soon  
because i rise above this  
and make life what it is  
some call me crazy and weird  
but one day they will hear  
what i half to say  
to make life a better way

# Bullying Poem

people aren't always what they seem  
some are nice some are mean  
they never treat you like you're the same  
which gives us so much pain  
we all want to be accepted in this place  
now we can't bare to see our own face  
now look at the pain you left behind  
and the broken glass on the other side  
you broke our heart in half  
to make yourself laugh

I have this dream right inside of me

anywhere and everywhere you want to go

even though darkness controls half of my soul  
my story will always be dug in this hole  
ill never let it out  
even if my spirit shouts  
it better that way  
no matter what you say

brittney vincelette

# How Much I Love You

as my black heart gets bigger with love  
i see the birds fly in the heavens above

and as i follow my heart  
nothing can tare us apart

brittney vincelette

imagine a place you can call your own  
then you will no longer moan  
where the myths are finally real

a place that is so beautiful  
now you feel so wonderful

brittney vincelette

just when you think the day will not end

and cant bare your soul

# Its Time To Move On

Its difficult to say goodbye  
but its not so easy to say hi  
because when you get to close to someone you love  
they fly away free like a dove  
yes they go to a better place  
but all you want to do is see there face  
the light will come down on me oneday  
just please dont let them take you away

# Life Is An Gift Ready To Be Unwrapped

Everyone wants a normal perfect life but the real question is what is normal some say it is to have both parents living with you. If you really think about it hardly anyone today has both there parents its more luck then normal. The truth is though life isnt about being normal or about making mistakes its about learning how deal with them it is also about living every last breath you have to the fullest and never letting ago no matter how much easier it would seem. We all wish there were short cuts in life to get us where we want to be but if we didnt take the full path we wouldnt know what to do when we got there. People need to realize everyone makes mistakes and trying to run away from them isnt going to make it better. We dont have to walk this world alone who needs a perfect life when you have friends and family to help you isnt that perfect enough. In life there are no short cuts but there are dead ends and no matter how hard it is work around them well will find our way out someday. So take every chance you got and every last breath you have and make the best out of it no matter who stands in your way.

and i believe my soul will go there soon

i cant even speak

you will always stay in my heart

even if you are not perfect

The leaves grow green on this summer evening  
the flowers grow to start a new beginning

our life is like a mountain  
we have our ups and downs  
we may smile we may frown  
we just have to look for the good and forgive the bad

so take a step to the other side and walk into the light  
even if it is too bright

brittney vincelette

as i walk by every tree in sight  
i think about how beautiful it looks at night
