## Grant Lovell(1993)

I love reading and writing poems. I'm very open and my poems take apart of me. Just message me to read one of your poems and I will, as well as comment. I like to be with friends as much as I can, but when I'm not, I either write or just listen to music. I hope you enjoy my poems, and please comment. Take care!

P.S. You can message me just to chat!

# A Day To Remember

I've tried not to look back at the past,  
But it all catches up so fast.  
Sinking in yesterday,  
Rising up for today,  
And reaching out for tomorrow.

I can't hold on any longer,  
I'm losing everything.  
I need you by my side,  
Before I leave it all behind.

There is whole in my heart,  
Where you used to be.  
You're always on my mind  
Did you think I'd forget that easily?

You are something I can hold on,  
For forever.  
You are a day to remember

# All I Want

It hurts again,  
What I can't help  
And I can't scream for myself  
Because of the pain

I just need your faith in me,  
No one else wants to believe in me.  
I've kept you from falling,  
Until you stopped calling.

I know,  
You'll never let go,  
So let me show you  
That I care just as much.  
Its not the same without you  
I've gone insane, tonight

All I want,  
Is for you to have faith in me  
To wait for me  
Before its too late for me

# All Our Love

I always had thought I would be alone.  
When all the sudden, you came from the blue sky.  
My heart was dismembered, now you're light made it resown.  
I'd do anything for you, even if my life had to die.  
No matter how much you tried to reap my heart.  
I'll always make us try to endure.  
Instead of suffering love,  
I'm making our relationship unsure.  
All this pain penetrating my skin.  
Our love is turning to camouflage.  
Not having you makes me deep within.  
Understand my vibe for you is forever.  
I know how much you love me  
I just hope you will never forget me at least.  
I know we still have a chance.  
I love how you touch my cheek  
With your pulpous hand  
To give me a kiss of life.  
Knowing what I say to you,  
That you consume never takes control of you.

# Already Over

You and you're tears coexist  
You and the truth have miss been dismissed  
Kissing the knife as it twists into you're wrist  
You knew it didn't had to be this way  
You couldn't let the past be behind  
Should have let go and never looked back  
Now, you let the fears take over  
And the pain take over  
As shame shaked over  
Looking at you're self in the mirror  
Thinking all you are is just a bleeder  
Not wondering why you should be a redeemer  
You tried to tried to take the best from me!  
Go away!  
Tried to take the best away from me!  
Just go away!  
Shut up!  
Took my heart,  
Left it all scattered apart!  
I tried holding on as you slowly slipped away  
I gave you nothing less than perfectness  
Now you treat me worthless  
Its already over now  
Fading slowly  
nothing left to lose  
My best defense  
Was running from you  
Take it all away  
But its already over now

# Amend

I feel powerless,  
I'm paralyzed  
Everyone is careless,  
That's what I realized

Listening to wise voices,  
Even though I ruined all my choices.  
But I still walk this road to nowhere  
Even though the pain is too hard to bare.

With the sun that descends,  
I can't wait to see the end.  
With your life that I defend,  
Ours will come together to amend.

# Anything For You

I'd do anything for you,  
Anything to make you smile.  
You made my life worth while,  
Yeah, I'll do anything

Somehow, you made life work out,  
I don't live life like a lost soul now.  
Take me away, I'm done with everyone here  
Take me away, I'm not here to stay

Pen and paper, It's all I've got.  
Night and day, through my mind you are.  
Because you're so far, to take me away  
To take me away, my shooting star.

The moon shines through the leaves,  
My whispers get louder through the breeze.  
Sitting here with you, felt like forever.  
It's the first time, I could move forward

I'd do anything for you,  
Anything to make you smile.  
You made my life worth while,  
Yeah, I'll do anything

All those nights, seemed like the last  
Darling, don't fall asleep.  
All those nights, went by so fast.  
Darling, dream in the moonlight.

I'd do anything for you,  
Anything to make you smile.  
You made my life worth while,  
Yeah, I'll do anything for you

Grant Lovell

# Be You

Since I knew you  
I never seen a person  
Who concealed so much within  
Always had a wide smile  
Keeping your head help high  
Never letting your guard down

I saw through the false act  
Deep down beneath it all  
Buried to the core of your heart  
Lied that ruth of yourself  
You reached out for help before  
Only denied and lied to, it tore

A lot of dark days, bright nights  
Just to turn the lights on  
Now, you fought your way back up  
Withstanding all the judging and remarks  
To finally say, "Enough is enough"

As perfectas it is,  
No one seems to see it.  
You yourself, is the best  
No reason to change for the rest  
Just be you.

Grant Lovell

# Believe

A warm body,  
Beauty held against mine.  
Where love entwines,  
By the light of the moon  
Where the night glooms.

I love the way you tease,  
The way you breathe.  
You stoped the bleeding,  
You make me believe.

Grant Lovell

# Breathless

I maybe reckless,  
But I can't leave you breathless.  
I see your downfall,  
But I'm on the other side of the wall.

I may hate to love you  
I see right through  
Watching you on your own  
Screaming through the tears all alone

We hope the walls would just,  
Just start collapsing around us.  
But you and I,  
Are gasping for air.

Living from a tattered past,  
We are scattered broken glass.  
Once the lights are off,  
Darkness says goodnight.

I see the devil in your eyes,  
Feeling the fire from your heart.  
You pump hate in your veins,  
I could tell from the very start.

I maybe reckless,  
But I can't leave you breathless.  
I see your downfall,  
But I'm on the other side of the wall.

# Bullet For My Heart

In with a bullet, out with hearts  
Forever in my heart, you will remain  
In with a bullet, out with hearts (with hearts)  
There's nothing, but bloodstains  
(With hearts)

I stare into your eyes,  
The spark of insanity.  
Races through my heart,  
Your beauty of art.

Persuades me that I'm in love,  
Your words get to me,  
A simple touch troubles me.  
And I think cupid isn't stupid.  
I don't want to let to go,  
I have no control.  
You're the drug,  
And I'm in love.

In with a bullet, out with hearts  
Forever in my heart, you will remain  
In with a bullet, out with hearts (with hearts)  
There's nothing, but bloodstains  
(With hearts)

When you are near,  
Everything inside me burns.  
When you speak to me,  
My whole world turns.  
Without you,  
I feel buried alive and bleeding  
Without you,  
My heart doesn't beat normally.

A place where you belong,  
The bullet for my heart.  
It was you all along. (all along)  
The bullet for my heart.  
(For my heart)

I've picked up the pieces,  
The more I pick up, the more I shatter.  
All my life, nothing mattered.  
It's all ashes to ashes.  
I have nothing to lose,  
Everything you know is the truth.  
So lets make a noose,  
So no one else knows the truth.

Grant Lovell

# Burning Sorrow

Tonight is my last time,  
That I would love again.  
This world around me,  
Is twirling as I drown.

It's not the wounds that hurt.  
Not the lies that I found.  
It's the memories,  
Bittersweet memories.

I don't know where I belong.  
You leaving feels so wrong.  
The pain just goes on for so long,  
How can I go on?

I can't get out alive,  
I'm out of sight.  
I can't survive,  
Unless, I'm gone tonight.

Whatever hurts you,  
Kills me softly.  
I know I can't make it through,  
I just want to be with you.  
So please, help me so true.

Watch me bleed, so I can love  
Look into my eyes, past the skies  
Have faith in me, feel the trust  
Lead the lust, before I bust.

I used to hold you till tomorrow,  
But now its all burning sorrow.  
I'm waiting for the final deathblow,  
So I can let go.

Grant Lovell

# Captive

My heart, was off beat.  
Our start, was incomplete.  
You're emotions, controlled the tears  
My soul, became blackened, from fear

I'd take you to the darkest place,  
Away from all the lights tonight.  
And breathing so tightly now,  
In and exhale through a crawlspace.

You're not alone, you're home  
In this cellar door,  
Dead bodies galore.  
Tearing out your throat

Lost you're faith,  
But don't you cry  
Tossed like hate,  
But you still try.

You're skin is burning,  
Eyes blinking and bleeding  
Humanity sinking,  
Head turning as your screaming.

Decay becomes your oxygen  
Blackness is your light  
Pain is you're energy  
Torn love is your fight

Beauty in different ways,  
Your face it lays,  
Beside the broken glass,  
Where you killed the past.

Grant Lovell

# Climb

I've waited a long time  
A mountain too high to climb  
It was so worth it  
But did I deserve it?

I kept trembling, the rope loosened  
I held my grip still tightened  
Your words led me to stay  
But my heart ached to sway

I tried my best, and reached for hope  
Even though you threw me back down  
I laid to rest, to get back up to the crown  
Till I die, I'll hold on to this rope

Just know I'm swinging to the other side  
When I'm ready, I'll come back and climb  
Much more to explore  
That I'm looking forward to.

Grant Lovell

# Close My Eyes

I close my eyes,  
And I picture us together  
I close my eyes,  
And see us being together forever

The person I am is because of you  
You saw right through my past  
My love for you will always remain true  
Making my heart last

You were there from the start  
You separate light from dark  
Close together or far a part  
You are forever in my heart

I close my eyes,  
And I picture us together  
I close my eyes,  
And see us being together forever

Grant Lovell

# Dead Asleep

I lay here,  
With the crescent moon  
Shining down the window  
Mending the pain  
As I lay my head on the pillow  
I see lost stars,  
Fading out of the darkened sky  
Crimson tears all of the years  
Stream down my face  
I feel like I have no place  
Remembering why I'm like this  
Why I'm still fighting  
Puts me down deeper and deeper  
Clouds gather around  
I scream with no sound  
I'm in fear of losing you  
It seems like have lost you all along  
As if you had been gone  
I don't want to have that same feel  
Where my love and happiness is immune  
Flashbacks of knives,  
Cutting through the veins  
Making blood rain  
Am I dead or alive?  
I've forgotten what life was for  
I don't know anymore than I would have before.  
All my pathways I've turned to  
Have always before my eyes  
As if all the words told to me  
Had been beautiful lies  
Clouds gone away like shadows  
Sky still pitch black  
My eyes feel filled with sorrow  
Bodies seems numb  
All this because of him  
Not any him, it was you.  
All this for what you did  
We had it all, but I wasn't good enough  
Memories can't be forgotten

Heart is lost within  
You cheated on me for some one else  
For something less  
You didn't say you didn't deserve me  
Just thought it was easier to run  
All the cuts,  
They all bust  
Losing all of your trust  
My crimson tears become ashes  
While my heart crashes  
Makes me wonder how you truly felt about me  
How all the effort and time  
Didn't even make to the surface  
Of how you wanted it  
I'm in a broken song  
You've killed me yearslong  
Tell me you love me one last time  
So I have some hope  
That I can cope with  
All I think is I'm just a myth  
Now its just the crescent moon  
All alone, just like me  
No one will listen to my heart  
They just want to tear it apart  
I've given to many chances for true love  
I took to many holes through my soul  
Lost count on the bandages on my heart  
Feeling too many slits on my skin  
The pain is my home  
Shows me I'm not alone  
The rest of the night  
I'll close my eyes  
Think deep  
With the beautiful scars that forever bleed  
I fall dead asleep

Grant Lovell

# Don'T Wait For Me

I see it so clear now  
I don't belong here  
Afraid by fear  
Holding on by my tears

I know I got to move on  
But I can't go on God,  
Not till she knows I'll be gone  
So help me with this song

Don't wait for me  
Don't debate on me  
You got to let go of me  
Don't get upset, we'll be back when the time is right

Vice the memories  
Look at the photographs  
Don't cry for yesterday  
Because I'm with you anyways

I know I got to move on  
But I can't go on God,  
Not till she knows I'll be gone  
So help me with this song

I know it's hard  
But I'm always in you're heart  
So close you're eyes, as you look into the skies  
And pray until the day you die

Grant Lovell

# Empty Inside

I can't feel inside me,  
Numb, numb, numb.  
Is all hear to myself  
People say I need help  
But they cant understand  
Numb Numb Numb

Pain is my new friend,  
Walls are my knew hug.  
Sound is my feel,  
Isolation is my way to heal  
Along side with time

I've let my past consume me  
In the darkrooms, I bloom.  
Like a dark angel in the night.  
Because everything is held tight

I hurt myself, erase myself  
Lets me know I'm still real.  
Everything seems done,  
As life and happiness is gone,

Days and days go by,  
And time flys by.  
Because what I truly feel,  
Is all empty inside.

Grant Lovell

# Fire Desire

A warm body,  
Beauty held against mine.  
Where love entwines,  
By the light of the moon  
Where the night glooms.

I love the way you tease,  
The way you breathe.  
You stoped the bleeding,  
You make me believe.

Your hair falls on my shoulders,  
I'm lost in those memorizing eyes,  
Full of dark secrets and darker love.  
I feel myself losing control,  
Your body is my drug.  
I am hypnotized by your kiss,  
Your touch on my back,  
The way your fingers glide down my arms, my legs.

I use to twist and turn with a heartburn,  
UntilI heared your dark words on my neck.  
Your touch salvate me through the darkness,  
Shivers went down my spine,  
It's your love I can't deny.

Time elapsed as night grew darker,  
Placid silence, no distance.  
I'm your armor, your my pleasure.  
Eyes seize at glance.

Heart pounding,  
The air is getting colder.  
Your shoulder abreast to my chest,  
I feel the body warmth caressed.

The temp of your heart,  
Matches to mine.  
I now find, the soul I confined.

With your eyes divined.

Your scent stays with me,  
I can smell it where you lie.  
Where the bed stays,  
And your mattress body shape lays

Soft words, gentle touch,  
Hidden agenda, no limits.  
Like a dream come true,  
A sky dark blue.

Contorted covers,  
Across our skin.  
Lustful lovers,  
Fired with desire.

Grant Lovell

# Gone, Gone

I'm still alive, I'm barely breathing  
The knife breaks the skin  
The words keep sinking in  
It's all over, it's all over

No matter how much I wipe the mirror  
I can't see any clearer  
I thought I moved on  
But I'm just gone, gone

I'm stuck in reverse  
The past viced me in a curse  
The present is so blurred  
There's no future if I can't get out alive

If I stay any longer  
I'll be held captive in my own destruction  
I need to run away, be gone forever  
Otherwise I won't get stronger

No matter how much I wipe the mirror  
I can't see any clearer  
I thought I moved on  
But I'm just gone, gone

Grant Lovell

# Good Night

Sleep tight,  
My little angel.  
Say good night,  
Under the blissful moonlight

Lay your head upon my chest,  
As the times get harder.  
And our love gets stronger,  
We no longer, have to lay things to rest.

I lie awake, your eyes are closed.  
You hate, when times are fast.  
We are living in the past,  
To me, nothing has changed

Darkness has fallen,  
Clouds gather, shading light.  
Your hands get tighter  
My heart feels like a lighter

Your desire is turning on fire.  
The room is placid,  
We are flesh to flesh.  
Burning passion, the room is a mess.

Lustful lips,  
Caressing the hips  
We make love again  
This time, we won't end.

Grant Lovell

# Holding Hands

Holding hands with our sins. Leaving our innocence behind. Running away from the truth. When we fight, you hit me, but I never react. Just making our innocence incinerate to ash. My sorrow descends to tears of blood. I try to comfort you, but slip away from our only warmth. As you turn away, my skin turns to leprosy. Never thought this could happen to us. I thought we could endure. We have so much purity. Apparently, we both have a different side we never express. As my heart and vibe for you is dismembered, I can only hope this is all a dead memory. Your eyes turn to evil lies and touch turns to hate. Please deliver our fate.

Grant Lovell

# I Know, I Know

Hear me out,  
Hear me now.  
I want to tell you,  
No I need to.

That I love you,  
But do I deserve you?  
I don't want to shove you,  
Don't want to hurt you.

What I'm trying to say is,  
That I do love you,  
But I can't be with you.  
I know, I know.

But If you felt the same,  
Than everything would change.  
I wouldn't feel so ashamed,  
And it all would be okay.

Maybe, you think you don't deserve me.  
But you want to see me suffer.  
Yet, you are already with a lover  
Don't worry, I know its not over.

So...

Hear me out,  
Hear me now.  
I want to tell you,  
No I need to.  
That I love you,  
But do I deserve you?  
I don't want to shove you,  
Don't want to hurt you.

I know, I know.

# I Love You

I love you,  
You are my only lover.  
Even though you told me it's over.  
In my heart, you're there forever

Your heart is made of gold,  
Hair of a stallion,  
A soft hand to hold  
Your eyes bright as the sun,  
Making my heart unfold.

Through ever touch,  
And every rush with you.  
Makes me my heart beat faster,  
Ending all my life's disaster.

Please let me breathe with you,  
Please let me dream with you.  
It's hard to be all alone,  
And face the truth.

So take me away,  
We need to get out of here.  
To get rid of the nightmares,  
And let out all our fears.

I love you.

Grant Lovell

# I'LI Be For You

Let's slow down, hang on tight  
Let's take a breath  
And exhale towards the stars tonight  
Now close your eyes and rest

We cherish these moments as they last  
Till I drift away, slipping through your arms  
You'll tear down, but patiently wait  
Because you and I, will be brought by fate

I know it's hard to crack a smile  
But don't worry, I'll be for you  
Just wait awhile, I'll be for you  
Now close your eyes and rest

Grant Lovell

# Inbetween

The distance between us,  
The gaps and needs,  
Is what I mean when I say,  
That you never look my way.

Every breathe I take,  
You seem farther  
And your looks seem colder  
I know you are having harder times than before

Hide the fire, my love  
Show me a smile.  
Things take awhile  
But I'm here by your side forever.

Together, things will get better.  
Without you love, it seems like never.  
Hold my hand tight,  
And we'll get through the fight.

Grant Lovell

# Inmind

I saw you for the first time. My heart pumped and pumped until I almost drowned myself with my own blood. My spine went into shock, because you actually spoke of me. I couldn't see anything with your beauty gleaming off you. Blinded me, like heaven's angel. I felt alive again. Little by little, pieces of us connected. Took awhile for us to get to the heart, but It wwas all worth it. Whenever your ready for me to take your heart and hold it, I'll be there. Otherwise, I'm dead inside. Lost within.

Dear Love,

Why do you keep tattering my soul and battering my heart? Your hurting me so cold. While, I heal so slow. Why can't you bring light in me? Not just for awhile, permanently. I'm glad when you make me helpless instead of her. All I want is to do is lay with her, but you wouldn't understand. You just want sex. I don't call it 'Sex.' I call it Love. Do me a favor and just leave.

Thanks,

Heart

# Letting Out

I need another story  
Something to get off my chest  
My life gets kind of boring  
Need something that I can confess

Till all my sleeves are stained red  
From all the truth that I've said  
Come by it honestly I swear  
Thought you saw me wink, no, I've been on the  
Brink, so

Tell me what you want to hear  
Something that'll like those ears  
Sick of all the insincere  
So I'm gonna giva all my secrets away  
This time  
Dont need another perfect lie  
Dont care if critics never jump in line  
I'm gonna give all my secrets away.

Grant Lovell

# Little Soul

Those curvy hips,  
Soft words that make me love.  
Those tasteful lips,  
Make me fly above.

The bittersweet taste,  
Something I can't waste.  
Its the way you tease.  
The way you make me bleed.

Your eyes giving me beautiful lies,  
Wide smiles to make me go wild.  
From your caress, my heart will rest.  
You got me right where you want me to be

Twisted around your fingers,  
Where the lust lingers.  
I have absolute no control.  
Swimming in a fish bowl, my little soul.

Grant Lovell

# Lost

I feel so lost,  
They way I was tossed.  
I feel so lost,  
With my heart in exhaust.

I never felt this alone,  
With all that we have grown.  
Just burn to ashes,  
As my heart crashes.

Was it worth it?  
The leave with no feel?  
Breathing with no heal,  
As I bled, the pain I conceal.

I feel so lost,  
They way I was bossed.  
I feel so lost,  
With my heart at cost.

You left, when you had it all.  
I took the fall, as I recall.  
You left for something less,  
Leaving me with a hole in my chest.

Never gave me a chance to ask why  
I had no choice, but to cry  
I'll stay up all night,  
With these bloodshot eyes,  
As I say my goodbyes.

Grant Lovell

# My Life Will End

The ones that stand when they really can't,  
Have heart.  
Even though we are really torn apart.  
We dream until we scream,  
Hate until we feel love,  
Love until were shoved.  
Look at the sky above,  
And pray for the young-  
We've lost it all.  
No where to go-  
No one ever knows.

That we've burned our souls,  
Forgotten a place called home.  
You think you own me?  
When you really don't know me.  
Suffocating, I can't breathe.  
Hell, all I do is bleed!

I keep think I'm the one to blame,  
But my words are unspoken-  
And I'm always left broken.  
It seems I have no rights,  
No where I belong.

Take the air from my lungs,  
And just be done with it.  
Gone with the wind,  
My life will end.

Grant Lovell

# Never Too Late

Watch the moon on a dark night,  
As the smooth ocean's wave,  
Glistened by the moon's light.  
Clouds glide with the dark blue sky,  
As we all wonder why, as time flies by.  
Can you feel the warmth of our clentched bodies?  
With hearts ever fulfilled in this beauty?  
Pulpous touch of one's care,  
Eyes gaze onto one's face.  
Lies left behind, without a trace.  
Night with no despair, just you and me somewhere.  
Lips of tenderness, soothe the soul.  
Watch the moon on a dark night,  
Leave out all the rest.  
Watch the moon on a dark night,  
Be with someone that helps you best.  
Watch, feel, hear, and taste,  
Before it's too late to appreciate.  
Consume what holds you,  
Because it's never too late.

Grant Lovell

# Open Door

You seem lost and confused  
Afraid to reach out someone  
Scared of what might happen  
You've seen it before, just not in your door

It's all around you, happiness and love  
But the mirror shines back and shows you  
The lost hearts heart, destruction of words  
You don't want to feel that way

I see it in your eyes  
If you let me in  
I'll catch your tears  
I won't disappear

You wonder if there is anybody out there  
That you can trust with your life and beyond  
If you let me in, and give me a chance  
I'll give that answer that you are looking for  
Just open that door

Grant Lovell

# Right Here

It's never been so clear,  
That I've always been here.  
Right by your side, It's not over  
Forever by your side.

Sleepless nights,  
Nothing to hold my heart tight.  
Sleepless nights,  
Your always my night light.

You're the stars that are bright  
The moon that shines golden beauty  
The river flow that's endless  
And ocean's water so pure

Making my heart endure  
As I lay under the moon  
Hoping you'll come back to me soon  
And I'm still your amour, you're the cure

I would embrace death for you  
Take away the nightmares  
Soothe the wounds, and heal through  
Because I'm always right here

# She's The Blade

Shes the blade,  
And I'm the one thats afraid.  
It's not the pain, not the shame  
It's the memories of yesterday

Red stained dairies,  
Wrist of the devil's tears,  
Sorrow eyes of angel's cries,  
In my fears and her lies,

Are my exit wounds.  
From the inside, I am numb.  
Will I feel again?  
My heart doesn't breakeven.

From guilt and pain,  
That I can't wash away.  
I can't hide the stains,  
It all stays the same.

She's the blade,  
The knife that will make me fade.  
My heart reaches it's dead stop.  
From being drained out of a love knot

Grant Lovell

# Stranger

I'm just a stranger  
But I could be your next door neighbor  
I'm in love with a stranger  
I fall for you

Laying in bed on a silent night  
Hear your whispers to my ears  
They linger to me every moonlight  
A voice I don't recognize, but maybe in years

I'm waiting for you  
I'll sweep you off your feet  
So you don't have to cry in your sleep  
Come out, don't be afraid

Where are you? Who are you?  
Point me in a direction  
So I can find you, stranger  
So I'm not in danger

I'm just a stranger  
But I could be your next door neighbor  
I'm in love with a stranger  
I fall for you

# Summer's Song

It's the summer  
The heat beats down on us  
And there's nothing to do  
Just watching the ocean right through

People are coming in and some are leaving  
To get away, from the blazing sun  
It's a chance to get away  
Be gone, gone, gone

Your packing up, ready to go  
You still don't know  
And I still can't show  
That I'm scared

Waking up and realizing your not there  
Never had the courage, blinded by fear  
Maybe, in this summer song  
You'll know how I feel, all along

It's the summer  
The heat beats down on us  
And there's nothing to do  
Just watching the ocean right through

You'll be far away, different places  
Miles I can't bare to say  
All I can do is hope your okay  
As times slows down

Summer is here  
The last one we'll have  
The last one, to ourselves  
Because you've got to go

Your excited, got what you wanted  
Finally got what you deserve  
I'll be waiting for your return

Tonight, our kiss will burn

It's the summer

The heat beats down on us

And there's nothing to do

Just watching the ocean right through

In this summer song

# Take My Hand

Take my hand,  
and look into my eyes,  
the eyes that sees you as a precious gift.

Take my hand,  
and you will see me everyday,  
Until my hair turns gray, I am still at your side.

Take my hand,  
and I will hold it tight,  
and guide you towards right.

Take my hand,  
you'll see dreamland.  
To see the truth.

Take my love,  
And you won't be shoved.

Take my love,  
to feel no pain.

Take my hand,  
and I'll be with you,  
till we fly above.

# The Light

You can't hate me  
You can't escape me  
Its like your here with me now  
With the sun dying down  
And the stars beaming out  
With the pain gone away  
Thats out of my chest.

Life as we know it  
Has it its letdowns,  
shutdowns  
breakups and cleanups.  
But at the end if of all  
We are still here  
As we wipe all those tears  
And shake off our fears

Its these memories that keeps us strong  
Its this song that kept us all along  
Now we got it all  
No more hitting drywalls  
No more watching us fall  
We've got it all

Now take this hand,  
Lets walk in the light.  
To take on our last words  
'Together forever.'

Grant Lovell

# Those Pretty Things

I see those pretty things,  
And they walk right pass me.  
I see the beautiful things,  
And that's all she is.

Pretty things wipe away the make up,  
After the unforgettable break up.  
The beautiful things hide the pain,  
As she walks away in shame.

When I first heard your voice,  
I felt so alive, that I could just die.  
I want to fall into your arms  
And be warm like the sun

I see those pretty things,  
And they walk right pass me.  
I see the beautiful things,  
And that's all she is.

# Thought Wrong

Did you ever think,  
I'd stop thinking of you?  
How can I forget such a face?  
Nothing can come across and replace.

Why, oh why?  
You treat me like a mistake?  
Maybe, you're not awake,  
And I'm just you're heartache.

But it's true  
Always on my mind  
If you only knew  
If you and I, really combined.

It's not an obsession,  
Just a fool's heart lesson.  
Letting you know,  
I only breathe with you.  
And dream about you.

Grant Lovell

# Tried

Got your hands, covering your heart  
From all the damage, like a bandage  
Can only heal so much, till the pain starts  
You'll cry in vein, the hand of blood.

Love is an illusion,  
The pain you feel is a curse.  
It's hard to function,  
When you don't get what you deserve.

In your eyes, you have died  
Behind all the lies, you're empty inside  
Too many voices, inside your head  
You're falling in pieces, in pieces

Torn apart at the scene,  
You don't know what to believe.  
No need to dream when you can bleed.  
Rejections is all you see, besides tears

Despair, beyond repair  
Tried fixing you,  
Tried lifitng you up,  
But I didn't have the right tools

Grant Lovell

# Truth Is

I've been waiting for a girl like you,  
To make me dream.  
And to make my heart beat,  
.....Again

You change my terrible ways,  
I listen to everything you say.  
Till the moon is at rise,  
And the sun dies.

Your eyes get to me  
The lies don't let me  
A voice beyond heaven  
Overlap what's given

You've got my heart,  
Stored in your soul  
To make us whole  
So we can make a new start  
(when we fade away)

Deliver our fate  
Away, away from hate  
To a world-  
That is never

Grant Lovell

# Voodoo

I like the way how the knife  
Twists in my wrist  
I like the way you lick you're lips  
When the blood drips

Stains all over my shirt  
My eyes full of hurt  
Shaking from the words you said  
You look away, words unfed

I love the way I'm chained up  
Like all I've got is insane  
Nails buried deep into my skin  
Teeth ended in my neck

The way you are talking  
You got me shaking  
My bones are breaking  
And my heart is aching

Down my spine, I shiver  
Teeth shattering, like cold weather  
Goose bumps, I'm on the edge  
Heart beats faster, when together

You got me on some voodoo,  
Oh, oh, oh, you already knew.  
I try to hide from your desires,  
But I always come back sired.

# We Are Falling

We watch the city burn  
We see the rivers float away  
Is this the end?  
Is this were the tables turn?  
Will I see you again?  
Or will I see complete darkness?  
Will you see me again?  
Or willl you feel the pain again?

How can I pretend,  
That letting go is the thing only thing left?  
Where's the hope,  
In a world so cold?

Close your eyes,  
Dream.  
Touch the illusive scenes.  
Close your eyes,  
Listen to the whispers,  
Hear the voices calling out to you.

We watch the city burn  
We see the rivers float away  
Is this the end?  
Is this were the tables turn?  
Will I see you again?  
Or will I see complete darkness?  
Will you see me again?  
Or willl you feel the pain again?

Its hard to say that everything will be okay,  
In times beyond repair.  
Hiding these tears,  
Is our only cross way.

Will I see you again?  
Or will I see complete darkness?  
Will you see me again?  
Or willl you feel the pain again?

Times are getting older,  
Memories are fading.  
We are holding on stronger,  
Our hands holding on longer.  
Together, we are falling.

Grant Lovell

# We Die Tonight

Sitting in the pain, I won't forget  
Leaving me with all these threats  
Now, all I do is live with so much hate  
So when I get away, I only kept my scars  
The other me is gone  
Had no reason to belong  
Tear up the pieces and leave me alone  
With no recourse  
And remorse from the start  
Happiness from the wounds  
A cursed soul  
Tied to a severed heart

Do you breathe?  
Or are you just a dream?  
I cannot maintain myself  
But I can retain the pain  
I cannot deny, theres no way to compelete this  
I cannot lie, I don't want to defeat this  
Take it all, to see what you've done  
To feel that now that you're gone, without me  
Numbness is all I have left  
I rather feel pain  
To remind me of you again  
I have no shame, just scars engraved

Show me you're heart  
Tell me you're desire  
Feel the fire, taste the burn  
Taste the degree of beauty  
Cut a smile into me  
Show me you're wild  
Slice a trace on the wrist  
Let the blood linger, to you're tendered lips  
Free the dead memories  
That are haunting me  
While I hold you in my arms  
As we die tonight

# What Separates Me From You

I can't stop pretending,  
That my feelings will never end.  
I can't face the truth,  
After you walked away from my heart.

I tried facing my fears,  
But instead, I broke my mirrors.  
I'm biting my tongue,  
Now I feel numb,  
At least I still feel alive.

Valentines,  
I'm not desperate; I'm just not with you.  
Valentines,  
Is what separates me from you.

Grant Lovell

# When Two Worlds Collide

Vacant space next to me at night,  
Waking up alone to the sun light.  
Its been that way,  
Since the day you faded  
And I've been waiting,  
For you to come back again.

I wish you could sing along,  
With your angel voice.  
That echoes through the doors  
Along side the chords.

Piece by piece,  
You are fixing me.  
Givning me hope.  
Like no one else could.

Your letters at my lips,  
Imprinting a kiss.  
The life of a knife,  
Held against my chest.

I've never felt so lost in the clouds,  
Never felt this deep down in the ground.  
Tears down your cheeks,  
Making your way back home.  
Found yourself alone.

Leaving everything behind  
I let go of it all  
And waited for time to elapse  
Until you got here and we collapsed  
When to worlds collide

Grant Lovell

# Where I Belong

In the darkness,  
I'm walking in circles.  
I'm broken glass,  
Shattered and tattered.  
In a life I can't get past.  
How much longer will my heart last?

I'm calling out, just screaming  
I'm buried beneath of it all  
Crawling out of my sins  
You wished you had taken the fall

I'm suffocating for you,  
I'm waiting on you  
To pull me up, pull me up  
So I can see that you are true

I need to think, so  
Bury me, bury me alive  
With all your lies  
And cover me with your shallow heart

In my remains, I'll be gone.  
That's where I separate.  
In my remains, I'll be gone  
That's where I belong

Grant Lovell

# Wide Awake

It's a shame, it had to be this way  
Saying goodbye, like it's the only way  
All those words that were never told  
You said we're better off, I said not today

When we fell apart,  
I heard a certain song.  
And my heart sang along.  
Like you and I did from the start

The glass isn't half empty  
We still have plenty  
It's our time, our time  
To shine into the divine

We don't have to stay here  
We can make this last  
Let's forget the past  
We have each other, nothing to fear

Please don't separate us  
I never knew we were falling through  
I never saw the clues  
Now, my eyes are wide awake

Grant Lovell

# You Knew

I opened up these scars,  
To show you how far  
We really are.  
Until the end of it all.  
You took my heart out,  
smashed it,  
cracked it,  
and threw it right back.  
Now I don't know why,  
I understand why I cried  
When really its you that lied, after I let it die.  
With these bittersweet memories and you're addicting disease  
Knocking on Heaven's door  
Acting like you deserve more  
When really its Hell,  
That has something instore

Just close you're eyes  
Drink the bottle  
Let you're body wottle  
Till you tumble and fumble  
As the world just crumbles  
Hit the floor with all you're lies  
And say all you're goodbyes  
'Cuz payback is a bitch!

When you're long gone  
And I'm singing this song  
You'll be in hell, engaged with torment  
No restraints, just lament  
Designed for punishment  
Having little taste of the pain  
You put upon the used innocents  
Revenge for the streaming tears  
Screaming fears, behind the tattered heart  
Scattered with all it's cracks and bandages

You had no control  
Making me feel worthless

You weren't the same  
Leaving me with all my shame  
You felt no pain  
As I obtained these scars  
I Can't wait for to get what you deserve  
So, I can peacefully burn what you knew all along
