Angel Of Heavenly Love

ANGEL OF HEAVENLY LOVE

An angel one day came
Thought it was a golden frame
Eyes wonderfully bright
Hairs veil heavenly light

An angel one day came
Thought it was just a game
Heard a voice smooth and caring
Got captured when hearing

An angel one day came
Thought I was insane
Felt a warmness washing
And my senses dashing

An angel one day came
Thought am I to blame
Held out a silver dove
Said follow it to the cove

An Angel one day came
Thought it's not the same
Kissed me on my lips
Enwrapping my hips

An angel one day came
Thought it was a golden frame
It is my Angel of heavenly love
Holding my hands forever above

Are We Angels Or Demons

ARE WE ANGELS OR DEMONS

Are we angels or demons
Priest's wasted sermon

Demonly damnation
Or heavenly salvation

Since our early creation
Exists devilish temptation

To left side we are torn
But rightly we were born

Each life one day dies
Mourning and cries

In this earthly life of being
One can not be forseeing

Devils brings the fear
How can we bear

The height of cross
Deep into the moss

Where do we come from
What is to be eternal home

Are we angels or demons
Priest's wasted sermon

Demonly damnation
Or heavenly salvation

Autumn It Is

AUTUMN IT IS

Foot sinking into green carpet's moss
Natural earthly tender cross
Autumnal soul of the forests
Lingering sounds up the crests

Open wide bird's prison cage
Finally free it hurriedly escapes
Trees foliage slowly undresses
leaves into mud get pressed

Follow the winding road
Away of hunting crowd
Listen to nature's silence
Free of human's guidance

Riverbed serpentine overflows
Hush hush sound of crows
Mist swallows surroundings
Swirls the breeze in bindings

Shadowy sceneries autumnal
Such a magnificent proposal
Yellow orange brown and prune
Turning into a painter's colored tune

Autumn it is

Baisers Suaves

BAISERS SUAVES

Baisers suaves au gout de fleur de miel
Ils m'emportent sur un nuage doré
Loin des tumultes occultes
Tes baisers et je suis au septième ciel

Baisers suaves et doux amer
Tes lèvres entrouvrent les miennes
J'étouffe sous ton souffle
Mes bons sens me lâchent

Baisers suaves éveillant la passion
Ses mains caressent mes courbes
Un océan d'amour se déchaine
On s'abandonne sans gêne

Baisers suaves plein de promesses
La nuit avec lui elle sera douce et chaude
Soupirs de plénitude pour toi mon amour
Je t'offre ma vie entière au pourtour

Baisers suaves remplis de bonheur
Etre deux sur ce chemin de vie
En fusion nos cœurs ils battent
Les mots je t'aime m'échappent

Baisers suaves au gout de fleur de miel
Ils m'emportent sur un nuage doré
Loin des tumultes occultes
Tes baisers et je suis au septième ciel

Born To Live

BORN TO LIVE

Born to live your life
Destinies so different
One poor one rich
Cultures and human races
Why am I here and not there
This is my destiny sphere

Born to love and live
Mother's kisses soft
All around the world
Baby's sweet warmth
Eyes full of innocence
Daily pleasure enhance

Born to live your life
Searching for your loved one
Night and day thoughts
In my head turning round
Till you came in sight
And I knew you are the one

Born to love and live
Happiness or unhappiness
What's this all about
There you go with a kiss
And what do I most miss
You and me one to be

Born to live your life
Once up once down
Born to love and live
Share and give
Born to fulfill your life

Breezes And Elphes

Breezes and Elphes

Breezes as light as only air can be
Elphes dancing around a tree
Movements enchanting precarity
Happiness lived in serenity

Breezes as sweet as fairy tales
Hovering over huge waves
Elphes alike dolphin's dashing rapidity
Amazing creatures of god's eternity

Breezes as tender as tiny kisses
A flower basket full of magic wishes
Elphes ever powerfull love spell
Chasing meaningness into hell

Breezes as tight as an embrace
Elphes moving lightly in such grace
Scattering millions of diamond dots
On each little earthly spot

Breezes as hot as a huge log of fire
Sparkles cant swap to end fiercly desire
Elphes dancing rounds within flames
Playing naughty and happy games

Breezes as tremendous as are we
Gathering life's nectar like a bee
Elphes lovely long wavy hair
like caresses in a breezy air

Candle Flame

candle flame

sun has been shining through
the window screens today
warming our souls and bodies
counting this day as a new gift
thanking life for this blessing
measuring this passing day
with some gentle smiles
angel wings will fly them over
To lighten up at your place
a hazy blue candle flame flickering
through the thickening night!

Ce Jour Pas Comme Les Autres

Je regarde par la fenêtre
Pluie et brouillard dansent
Une vue pas trop réjouissante
Perspective plutôt désenchantée

Nébulosité si envahissante
Atmosphère pleine de morosité
Une journée sans voir le soleil
Ce n'est vraiment pas pareil

Où sont passés les belles couleurs
Elles se transforment en douleurs
Quelques chemins de vie magiques
Certains faits divers si tragiques

Ce jour pas comme les autres

La brume caresse les cimes
Un voile de feuilles mortes
Se tourbillonnent en prime
Les vents se lèvent si forts

Une faible lumière s'aperçoit de loin
Le rayon de soleil transperce l'opacité
Apporte à l'âme en peine son soin
Croire au meilleur avec ténacité

Chassons les idées tristes en puissance
La vie est notre source de jouissance
Demain sera de nouveau un jour
Certainement pas comme les autres

C'Est Quoi Le Bonheur

C'EST QUOI LE BONHEUR

C'est quoi le bonheur
On se le demande
D'une façon ou d'une autre
Une question universelle
Le cœur qui s'emballe
L'amour en trimbale
Bonheur si souvent éphémère
À chacun sa propre sphère

C'est quoi le bonheur
D'exister sur cette terre
Vivre au mieux notre existence
Avec ces innombrables exigences
Peur de se dévoiler sans tabou
On te prend pour un fou
Bonheur si souvent éphémère
A chacun sa propre sphère

C'est quoi le bonheur
Se laisser porter chaque jour
Nos émotions à fleur de peau
Jouir de ce qu'on veut sans façon
Pas facile d'y parvenir sans mordant
De maltraiter les émotions saignantes
Bonheur si souvent éphémère
A chacun sa propre sphère

C'est quoi le bonheur
De respirer cet instant même
De savourer son fragment son élixir
Une liberté d'agir et de penser
Se mouvoir sans aucune ou trop de peine
La vie se joue sur des milliers de scènes
Bonheur si souvent éphémère
A chacun sa propre sphère

C'est quoi le bonheur

...de se trouver soi même
...d'avoir la paix intérieure
...d'aimer et d'être aimé
...d'apprécier chaque nouveau jour
...d'accepter peines et joies
...d'avoir la gratitude de la vie offerte
...et une multitude de petites choses en plus
Bonheur si souvent éphémère
A chacun de créer sa propre sphère ...

Clouds

Clouds

Atop the iced mountains
Reaching up to the clouds
To hold them still

Dark lady river bed reflects
layers of blue and grey clouds

Fluffs of cotton misty white
Like a river of silky silver hair

Vanish into night sky
In a soundless pitch cry

Day sky full of endless shapes
There lies a woman in veil

Heavy clouds of rain
Streams of earthly pains

Sky seems to shiver
As pours water like a river

Falling drops red as blood
Caught up in a huge hood

It's the ocean of human tears
Which are so hard to bear

As all their magic dreams
Vanish within a tragic beam

Atop the iced mountains
Reaching up to the clouds
to hold them still

in vain forever

Coeur Et Enfer

CŒUR ET ENFER

Mon cœur s'est perdu
Mes ailes se sont brisées

Dans l'abîme je m'engouffre
Une forte douleur m'étouffe

Que diable m'emporte
Loin des tourbillons

De tout ces malheurs
Mon âme sombre et pleure

Mes joies se sont enfuit
Subtilement engloutit

Par la haine déferlante
L'appel des ténèbres hante

Chaleur si écrasante
Fournaise rouge incessante

Pécheresse en quémante
Refus éternel et obstinent

Chemin de la perdition
Pas de rédemption

Mes ailes se sont brisées
Mon cœur s'est perdu

ET L'ENFER M'EST APPARU

Morhardt Carmen Mencita Monoi Angel

Cœur Solitaire

Désire de plaire

Le temps passe
On se lasse

Lointains contrés
Interdit d'entrée

Cœur solitaire
Ne se laisse pas faire

D'aventures en aventures
Sans émotions pures

Le large appelle
Finis les querelles

Cœur solitaire
Que ça soit clair

Souffle d'air glaciale
Miroir ombre facial

Tristesse fait partie de la nuit
Jour après jour aussi

Cœur solitaire

Colors Of Life

Colors of life

In the beginning all was pitch black
But colors started to pour over
Inviting to go for a pleasurely hack
As well as much as to hover

Walking on the grass so green
Little feet playing in the mud
cascading water washes clean
new lifes growing in the bud

Sun shines brightly yellow
Heat waves melting the ground
Pears tasting good and mellow
Listen to many different sounds

Love color meant to be red
Walking up the stairway
Dainty caresses on your bed
Savor them and don't ask why

Hopefully don't feel blue
There is nothing you can't do
These simple words are true
They are specially for you

Look up at cotton clouds so white
Like the bride's immaculate veil
What a lovely charming sight
With colors through life we sail

No colors and nothing would be bright
All kinds of colors making us feel light
Enchanting colors for our eyes sight
Bothering us not to stay in the night
Enjoy and look at all colors of life

Curse The Fate

CURSE THE FATE

Curse the fate
As right away I knew
It's forever too late

On the very first sight
I wanted to hold him back
Knowing it's not right

This need to see you
Gives me the strength
To daily continue

Though we never kissed
Just your nearness
And I feel blessed

Curse the fate
As I met him
Many years too late

Heart is full of ache
Body and soul reaching out
This longing isn't faked

Can't get you out of my mind
After a solemn embrace
My teary eyes get blind

Daily life on and out
For sure this is true
I'll never get over you

Curse the fate
As right away I knew
It's forever too late

Dancing In The Air

Dancing in the air

dancing in the air
as light as a halo
little rhythmic blows
feets tapping in rows

dancing in the air
No hurry to go anywhere
easy and fair over there
shiny dots on auburn hair

dancing in the air
hands clap rounds
music and laughter
the sunny sounds

dancing in the air
watch neatly creatures
whispering songs
til another day is gone

dancing in the air
Like a joyful breeze
Falling into waves
As deeply as caves

dancing in the air
Must be in a fairy tale
busy hoping like a bee
Feeling wonderfully free

dancing in the air
Ivory and melody
Holding hands
And playing bands

dancing in the air
Forget all you are

Chase infernal breeds
Keep the golden seeds

dancing in the air
happy spell today
tomorrow who knows
the ballet of life
might become sorrow
so tell you with care
Keep on dancing in the air

Dark Pain

Dark pain I fear

Heard a high pitched scream
Was it in my dream
Under his spell she fell
Into the world of hell

Is it the maiden queen
Whom I have seen
Tears color of red flow
Unbearable ache grows

Lord of the dark's embrace
Won't be of any solace
His shadow like a tower
Fading are all flowers

Her cherry lips so red
Want to kiss him till dead
No angel's nightmare
Only devil's dare

Ghost of darkness
Angel of forgiveness
Can't you pity me
Beg you let me free

From this dark pain I fear

Darling O Se Dice Amor

Darling o se dice Amor

Darling o se dice Amor
Por dios me das calor
Tu puedes ser mi cariño
El corazon de mi vida

Cuando te oye quiero bailar
Y me alegro para cantar
En mis ojos negros te veo
Como una melodía del cielo

Darling o se dice Amor
La vida sin ti no tiene sabor
Da me tus bonitas manos
Asi quedamos juntos

Un beso de tu labios
Y no puedo decir adios
Porque te juro que eres
Por el resto de mi vida

Mi Darling o se dice Amor

Daydream

Daydream

Why not have a very special dream

A daydream

In which you can do anything
lets fly into hot sunbeams
follow the heavenly path high up
over the appearing rainbow
look down at houses in a neat row
hear the churches bells ring
as well as childrens voices sing

A daydream

In which we could be all equal
Some sort of earthly paradise
Where sun eternally rises
Warming up the entire humanity
People caring and full of charity
Dancing and music daily occupation
What a magnificent intonation

A daydream

In which you can go anywhere
Places where everybody cares
Never alone and unhappy again
Moods tremendously serene
Don't ever stop to dream
like savouring a tasty smoothy cream
but nevertheless rememberit's just a very special daydream

Dont Ever Give Up Hope

Dont ever give up hope

dont ever give up hope
reaching the dark abyss
catch the thrown rope
chase the infernal pain
and crawl along the slope

don't ever give up hope
waterfalls washes away stain
so just go ahead and dare
to stand straight under the rain
and I'll be there to care

don't ever give up hope
sorrow surfaces the deep
long days after days
you don't have to keep
there are other ways

don't ever give up hope
sure he is gone your lover
please don't mind
although gone and over
keep the thoughts kind

don't ever give up hope
it's so beautiful to be free
after crouching in the shade
remember and look to see
the broken into two halves blade

Don't ever give up hope
Blinds must be opened wide
Let the sunbeams through
Give happiness a ride
Forever to be a part of you

Dont Say Goodbye On A Rainy Day

dont say goodbye on a rainy day

today was such a rainy day
out in the streets
as well in my heart
these drops pouring
down from the sky
though not wanting it
one pearling tear quite shy
dwelled out of my eye
please dont wonder why
just hate and cant stand
saying always good bye
especially as today
was such a blue rainy day

Du Und Ich

Du und Ich

ein Leben lang
nah und fern
immer Sehnsucht
nach Dir

Unsere Liebe
schwach und stark
zu gleicher Zeit

ein Lächeln für Dich
eine Liebkosung für Mich
und immer wieder
die Sehnsucht
nach Dir

Wie ist ein Leben
ohne Liebesklang

Endless Flow Of Glittering Stars

Endless flow of glittering stars

Endless flow of glittering stars
Sparkling shining eternally
Capturing our amazed glances
Looking up at heavenly beauty

Forever brighten up night sky
Millions wherever your look reaches
Shadows upon worlds beaches
oceans shine like diamonds flow

starlight glows through darkness
looks follow shiny falling stars
like a silver veil descending
touching earth light star caress

hundred millions of stars
shining brightly and enlightening
our humans sensitive hearts
wide open eyes bear tears

immensely intensely dark horizon
strewn by millions of glittering stars
up there just peace no wars
as no earthly explanation

enchancing our nightly life
the day one has to leave
dreams to turn into brightly star
mercy guiding for lost souls

imagine all nights without stars
only vast hollow blackness
moon shines flat and sad
no goldness upon darkness

wonderful eternal gift to our lives
human being has the pleasure

to look upon and savor for ever
an endless flow of glittering stars

Etre Métisse

Etre Métisse

Mais alors quoi
Ni ceci ni cela
Je suis une métisse
Voilà c'est comme ça

Mais alors quoi
Ni comme on dit
Blanche ou de couleur
La couleur on n'a pas le choix

Mais alors quoi
Ni brune noir ni jaune
Pas d'importance pour moi
Je suis citoyenne du monde

Mais alors quoi
Ni d'ici ni de là-bas
Deux cultures en moi
Pays magnifiquement différents

Mais alors quoi
Ni ancré ni parti
Je viens d'un pays
Aux sourires accueillants

Mais alors quoi
Ni forte ni faible
Être métissée pas facile
Dans ce pays où je vis

Mais alors quoi
Ni choisit ni décrit
Finalement là où je suis
C'est la moitié de moi

Mais alors quoi
Ni triste ni heureux

Double personnalité
Chance pour la vanité

Mais alors quoi
Ni entier ni détruit
Je continue ma vie
Sur ce sentier inscrit

Mais alors quoi
Ni à toi ni à moi
Le destin m'a choisi
Je dois continuer ainsi

Mais alors quoi
Ni aujourd'hui ni demain
Rien ne pourra le changer
Je resterai une femme
Métissée toute ma vie

Everywhere It Can Be Beautiful

Everywhere it can be beautiful

During my trip around the world
I thought where could it please me
There were times I wanted to stay
But farewell was never far away

If you saw a lot of our world
Afterwards you really know
Everywhere it can be beautiful
If we try to understand each other
Nobody goes through life and not bother

Look around open your heart and mind
And you will have the pleasure to see
Everywhere it can be beautiful
I like the big modern cities
The puls of our hectic time

Hear through the passing wind
The rush of the ocean
Listen to the song of eternity
Snow and ice of mountains
Wide deserts of sand
They are all a part of me
Like a homeland

Believe me everywhere it can be beautiful

Farewell

Farewell

To you my ever dearest friend

Today you were here
Smiling to me in your own special way
Your nearness so dear to me

The morning after you were gone
Your smile frozen in death for ever
The sound of your voice still lingering

Last moments of togetherness
Though destiny decided otherwise
Remembrance of you will stay in mind

So hard to accept your passing away
Heartache each new day
Life's clock stopped for you on a Saturday

But in no way shall I forget
Those precious moments of complicity
We had the pleasure to share

When sadness wants to take over
Your special smile for me comes up
And turmoil sudden recoils

Yearning for a last time
To see this wonderful mischiveous
Look in your tender brown eyes

No way however this could happen
You were torn from this world
And I can never bid you my farewell

as you were gone in a blast

even though I wish to say
Farewell

to you my ever dearest friend

Fatherly Love

Fatherly love

Strong this fatherly love
Surfaces for the newly born
Capturing daughter's gaze
Male strength evaporates

Nothing else matters
As protecting this dear life
Given by motherly birth
Into fatherly laps

Little girl fatherly weakness
Sweet and so innocent
Cuddles into his arms
For him to hold her warm

Blowing a tenderly shy kiss
On baby daughters cheeks
Melting at the wonder
That was given to him

Baby girl will start soon to grow
Girlish smiles lighten daily
Fatherly love will never end
But fairly tales they do

Like a flower in blossom
Baby girl little doll teenager
Years are constantly passing
Daughter becomes a woman

Fathers getting lost In contemplation
Of a new wonder to their eyes
Fatherly love as strong as ever
To protect their treasure forever

Femme

FEMME

Femme peuple de cette terre
Diabliesse ou prêtresse
Sorcière ou jolie fée
L'homme boit à son gré

Femme guérisseuse ou jeteuse de sort
Elle a rarement tort
Machiavélique ou angélique
Elle est la séductrice

Femme qui est à la source
Ses entrailles on sonde
Vies qui commencent
Miracle chaque seconde

Femme adultère
Toison de panthère
Pas de problème
Elle sait et gère

Femme si douce et cruelle
Toile d'araignée sensuelle
L'homme se laisse dévorer
Supplice infiniment perfide

Femme homme la paire
Peuple de cette terre

Fly Fly High Very High Up

FLY FLY HIGH VERY HIGH UP

Fly fly high very high up
Go right up to the very top

Endless wide horizon
Eternal white season

High or low level clouds
Cirrus Stratus outbound

Fly fly on a tender breeze
As if an angel much at ease

Lovely journey through air
Nothing about to care

Feel freedom feel free
Rain fresh and sheen

Fly fly senselessly higher
Nothing shines brighter

No limit to this liberty
Full unbearable sensuality

Feeling the eternal wind
No spirit of meanness and sin

Fly fly high very high up
Go right up to the very top

Feeling freedom and free
Fly fly and vanish into the sky

Getting Together

Getting together

Getting together means so much
A smile a human touch
Meeting face to face
As simply true friends

Pull up the blinds
Open your door
Kindred spirits
You will find
Discussing weather and news
Exchanging the views

Why lonely and unhappy be
When all you need is company
Getting together with folks
Enjoy the chat the fun the jokes
Just look around
And you will find one day
An opening door
Not very far away

Gouvernail De Notre Vie

Est-ce la vie? est-ce ainsi? gouvernail de notre vie□
le marin tient fermement le gouvernail
mais n'y peut rien contre la puissance
D'une vague déferlante, houleuse

L'homme essaie de tenir le cap prévu□
Mais malgré son courage et sa détermination
Le navire sombre, fais naufrage
Est-ce la vie? est-ce ainsi?
Est-ce la mort? est-ce ainsi?

selon la destinée de notre vie
les caps imaginés et espérés
ne se dessinent pas à l'horizon □
comme supposés ou désirés

qui tient le gouvernail de notre vie
que sommes nous durant notre passage
que devenons nous ensuite
chahutés ballottés de haut en bas
à la merci des creux de ces vagues!

la vie nous procure des frissons
d'amour, des frissons de haine
aussi des sensations de plénitude
ainsi que des sensations de solitude

est-ce la mort? est-ce ainsi?
est-ce la vie? est-ce ainsi?

le marin ne lâche pas son gouvernail
s'accroche de toute ses forces
l'océan dans toute sa puissance
l'engloutit dans son écume blanc

est-ce ainsi notre vie?
vie et mort liés éternellement
à jamais, sans échappatoire

un tourbillon d'événements nous happe
dés la naissance jusqu'à notre extinction
rien d'autre nous sommes
qu'une gouttelette d'eau
se noyant dans l'immensité bleu et profonde
de l'océan

notre vie est-elle réelle?
unique vie si précieuse
si précaire et en même temps
pour certains cruelle
pour d'autres belle

est-ce la vie? est-ce ainsi?
est-ce la mort? est-ce ainsi?

les larmes de nos peines
les larmes de nos joies
mêlant à l'agitation, le mouvement perpétuel de l'eau
et deviennent inlassablement
les perles précieuses de nos vies deviennent les larmes de nos peines

Heard A Scream

HEARD A SCREAM

Heard a scream
Was it in my dream

Under his spell she fell
Into his world of hell

Sure it's the maiden queen
Lying on the stone I have seen

Tear drops color of blood flow
Unbearable ache grows

Lord of the dark embrace
Won't be solace

His shadow like a tower
Fading are all flowers

Her cherry lips so red
Want to kiss him till dead

This is no angel nightmare
Only the devil's dare

Lord of darkness pity me
I beg you please let me free

Heard a scream
Was it really in my dream

Hirondelles

HIRONDELLES

Le temps se voile en douceur
Nuages noirs d'hirondelles
Peintures dans le ciel
Virevoltantes et farceuses

L'envol se dessine et forme
Bruits enveloppant si incessants
Les ailes en constant mouvement
Petit groupement ou énorme

Elles se préparent pour le voyage
L'instinct de la nature trémousse
Image d'une liberté acquise
Sans contrainte ni cages

Une folle danse dans le vide
S'ensuit une montée rapide
Le vent les portera si loin
Aux paysages lointains

Dans le bleu de ce ciel
Comme une douceur de miel
L'adieu des hirondelles
Incroyablement libres et belles

Holding Hands

HOLDING HANDS

Reach out for my hand
It dares to hold yours
Warmness to flow over
Holding hands

Lovely touch of a hand
Soft fingertips
Witness of love
Holding hands

Open palm of the hand
Follow life line
From young to old times
Holding hands

Daring caress of his hand
Smooth tenderness
Feelings like velvet
Holding hands

Mother's beautiful hands
Keeping her dear child
Nearest heartbeat
Holding hands

Praying hands
Asking forgiveness
For each sinner
Holding hands

I hold out my hands
You reach out for my hands
One final touch
Holding tenderly hands together

Humanity

What happened to our humanity
Looking around I see such vanity
Take some moments to measure your time
For sure this almost seems to be a crime

Living in such a terrible stress
People become more heartless
What happened to our humanity
Looking around I see such sanity

Why do exist all these fretful wars
People's existence full of terrible scars
For some populations it nears hell
Some others protected by a shell

What happened to our humanity
Looking around I see such frivolity
Beautiful done up ladies be a star
Haven't I got the more expensive car

What happened to our humanity
Looking around I see such cavity
Lets fill it with most utter caring love
As it's the only way to be all above

What happened to our humanity
Looking around I see a glimpse of conviviality
Humanity ability to share and care

Hungry For You

Hungry for you

Hungry for you
Whatever I do
This appetite for you
Is nagging me

Every new day
As soon as I awake
I am starving for you
To give me bits

Reality doesnt soothe
This hunger for you
Pit of my stomach
Aches so much

No matter what happens
This daily hunger
Goes on and on
When I think of you

As long as I cant
Have a taste of your lips
This hunger for you
Will not be fulfilled

Its like a kind of torture
This very hunger for you
Today and tomorrow remembering
Your near existence to me

Weakness going through my veins
As days after days without you
My blood boiling with
This ever lasting hunger for you

No matter what I try to do
How can it possibly happen

Being in such a powerless state of
Never ending hunger for you

Morhardt Carmen Mencita Monoi Angel

Hymn To The Ocean

Hymn to the ocean

As far as eyes can see
Lying ahead till blue horizon
Never resting water of the sea

Seagulls hushing through the air
Splashing into water like a spear
Catching swimming fish in pairs

Huge waves in never ending motion
Roaring and foaming sounds
As if in praying devotion

Frightening deep depths
Coral's sharp edges
Ships ending as wrecks

Many forbidden passions
Laid on inviting shorelines
Washing over emotions

Splendors of the pacific
Forces of the Atlantic
Full of boasting energy

Underworld's population
Enchanted temptations
Mermaids whisper their
Love hymn to the ocean

In Friendship

IN FRIENDSHIP

In friendship it's the little things
That means the most of all
The... let me help you
Things that may seem so very small
The... I shall be glad to do it
Things that make you care much lighter
The... come on and laugh with me
Things that make your outlook brighter
The... never mind the trouble
Things that make the yes I understand
The... interest in everything you planned
Things like a friendly word or smile
The... outstretched hand for help
Things that make you take the next step
The... feeling of nearness and warmth
Things that you don't feel any harm

In friendship it's the little things
That can add some happiness
To a human's loneliness
And make this life worthwhile

In friendship it's the little things
That are a kind of underestimated treasure

Inflicting Love Pain

Inlicting love pain

There you go again inflicting me this pain
Begging on my knees please explain

Knew living happiness before
Can it ever be restored

My love for you drives me insane
Don't tell me it's in vain

Even knowing you are a womaniser
It doesn't help I don't get wiser

You threw your love dart
And wounded my heart

Now I am such a troubled soul
Feeling as ugly as dark coal

Left only is sorrow and grief
Wont be relieved until I can leave

Lost in hopeless love addiction
Is this true or a terrible fiction

Let me go to live a new life again
Cut all the ropes and all the chains

There you go again inflicting me this pain
Begging on my knees please why don't you explain

And release me from this ever stinging love pain

Instants

Instants

Seconds hours
Nights and days
Ceaselessly
Relentlessly
Feeling worn out
earth turns round
heart keeps beating
life goes on and on
instants
tender and cruel
ugly and beautiful
sad and happy
relentlessly
we humans
run after instants
which constantly
however just passed

Jalousie Malsaine

Jalousie malsaine
qui se vit en vaine

elle nous entraine
contre toute attente
et contre toute lucidité

douceur de vivre
un amour profond
sans mensonges

c'est l'amour saine
qui vaincra la jalousie malsaine

Je Pense À Toi

Je pense à toi
quand le soleil me
renvoie les lueurs de la mer
je pense à toi
quand la lune se
dessine sur l'eau

je pense à toi
même si tu es loin
tu es quand même
si près de moi

le soleil se couche
la lune se dessine
les étoiles scintillent

je pense à toi
oh si seulement
tu étais là
tout près de moi

Joie De Naissance

joies - douleurs

douleurs vives
douleurs presque insupportables

rien au monde
vaut la joie intense
spontanée et profonde

suisant les douleurs
déjà oubliées

d'avoir pu donner la vie
d'avoir pu mettre
au monde un enfant

son enfant

Journey

Journey

Even though your journey just begun
My thoughts will travel with you
Wherever you might wander

Landscapes of different beauties
Majestic valleys, cities of interest
These made your wishes to go

Stronger than our bound
No way of keeping you around
My love for you completely vain

No begging could change your decision
This calling for freedom like a stain
Longing to part from daily path

Changing ways of living
like rain hushed by wind
this only desire on your mind

going away for a long journey
discovering our mother world
sites exciting enchanting and more

no chains burden to carry
liberty in whatever behaving
no waste for excuses

time stopped in my brain
but I shall not live in pain
as memories will remain

Even though your journey just begun
My thoughts will travel with you
Wherever you might wander

Keep The Gentle Candle Flame Flickering

Keep the gentle candle flame flickering

Happiness is like a candle flame
It flickers in a draught
And can lose the precious light
A breath of disapproval
Or of harsh blame
Dims this lovely glow
However slight of the
Ever gentle candle flame

Check the words that can
Dissipate the joy
Shield the gentle candle flame
That warms our hands
And lightens our heart
from the passing disturbing breeze
that can destroy precious peace
And love itself might depart

Let the gentle candle flame of happiness
Just be brightness and burning steadily
Let it shine through happening misery
As well as times of storm and stress
Be it undisturbed among adversity
By all means this beautiful glow must go on
Keep the gentle candle flame flickering

La Nuit Approche Pas A Pas

LA NUIT APPROCHE PAS A PAS

La nuit approche pas à pas
Lumière dans les chaumières
Yeux fatigués selon lueurs
Mon enfant n'ait pas peur

La nuit s'est installée
L'âme des ténèbres
Ou se trouve leur cimetièr
La vie de la nuit s'éveille

La nuit nous apporte le calme
Corps se prélassent
Diable je te chasse
L'amour m'embrasse

La nuit toujours après chaque jour
Au secours un gentleman voleur
Pourvue qu'il ne vole pas mon cœur
Femme aussitôt sera en pleurs

La nuit nous enveloppe tous
Qu'on le veuille ou pas
Berceuse de ma jeunesse
Souvenirs doux, je m'endors

La nuit s'est approche pas à pas
Elle nous rattrape inexorablement
Sommeil, sorte de vie ailleurs
Songes rêverie de nos nuits

La Vie Qui S'Ecoule

LA VIE S'ÉCOULE

La vie s'écoule comme un fleuve
Remplis d'obstacles et d'épreuves

Toi qui fais partie de mes pensées
Sans jamais trop t'avancer

Mon cœur bat la chamade
Ce n'est pas une mascarade

L'amour est il romantique
Ou juste un mot antique

Tant d'amour à donner
Je me mets à fredonner

Je te prie ne reste pas de glace
Un geste sans laisser de trace

Même si jamais ensemble
Je languis et tremble

Pas besoin d'avoir peur
En cadeau voici mon cœur

Ce cadeau restera fermé à jamais
Toutes les années que je t'aimerais

La vie qui sans toi se déroule
Obstruée d'obstacles et d'épreuves
Sans sursis elle s'écoule elle s'écoule.....

Le Destin

LE DESTIN

Le destin ne m'a pas fait naître pour toi
Je me demande mais pourquoi

Le destin m'a fait te connaître
Depuis ce jour je dois paraître

Mes sens sont en émoi
Dès que je t'aperçois

Je me demande mais pourquoi
Ne pourrais jamais être à toi

Je suis d'une nature chaude
Toi le contraire plutôt froid

La passion se consume en moi
Mais le bon sens est ta règle à toi

Je n'arrive jamais à t'évincer
De mes langoureuses pensées

La flèche m'a blessée au plus profond
Dans ce cœur meurtri elle s'est enfoncée

Je me demande mais pourquoi
Est-ce cet homme précisément

Que je désire si violemment
Avec cet amour à jamais perdant

Le destin n'a jamais voulu
Que je sois un jour ton amante

À l'autre bout du monde je m'en vais
Qui c'est ce qui va m'arriver

Entre le sort de ma destinée

Désormais je m'en mets

Mais toujours je me demanderai
Pourquoi mais pourquoi

Le destin ne m'a pas fait naître pour toi

Le Temps Et Aimer

LE TEMPS ET AIMER

Notre temps terrestre notre bien le plus précieux
Qui s'écoule eh oui inlassablement
Saisons après saison c'est pareil
Comme des gouttes incessantes
Ou l'aiguille de la montre de vie
Tic et tac notre temps est en mouvement

Savons nous encore apprécier et aimer
Tant d'événements qui remplissent une vie
Les journées occupées passent si vite
Hier l'innocence d'une enfance
Aujourd'hui la lutte de la survie
Demain la sagesse des années passées

Le temps et aussi aimer ceci est la vie
Qu'est une vie sans amour et des amours
Celui qui s'ouvre pour aimer sans calcul
Sans fard et en s'abandonnent au plaisir
Des caresses en mots et en gestes
A déjà récolté une certaine richesse

Pas facile cette existence si terrestre
Des hommes d'affaires oui qui s'affairent
Pour une réussite qui sera elle aussi éphémère
De tout et de tout le monde pour peupler
Ce monde beau et cruel de notre univers
Le temps et aimer ceci est une autre sphère

Demain peut-être nous ne serons plus là
Le courant de notre existence jusqu'à quand
Ne soyons pas pessimiste ou triste
N'oublions simplement pas
Que notre bien terrestre le plus précieux
Est notre propre vie à nous
Alors prenons nous le temps et aimons

Il va de soit pour tous que la main de la mort
un jour en un instant elle nous rattrapera.....

Let Get Laughter Way Out Of Yourself

Let get laughter way out of yourself
Make the happy sound awake
Laughter magic and enchanting
Don't sustain it in your soul
Let yourself go into joy
May it help forever
People from wherever
Getting circled together
Laughter can be a kind of help
A worthy enemy to distress
Rise this laughter so dear
To be heard by human ears
Make it go on around the world
Little chuckles happy giggles
So many ways of laughing
Don't fear the others comment
Let laughter way out of yourself
Be assured laughter is magic
Open your heart to this very
Very special kind of sound
Let get laughter way out of yourself
Make the happy sound awake

Let The Sunshine In

Let the sunshine in

Let the sunshine in
and burn all your sins
start a new life
with your lovely wife
what's the use of quarrel
like a too full barrel

Let the sunshine in
and start freshly to sing
open eyes to worldly beauties
accept joyful your daily duties
life might not be as desired
but nevertheless log on the fire

Let the sunshine in
open wide when doorbell rings
enjoy the company of loved ones
before you know they might be gone
blow away the sadly thoughts
and be thankful as you ought

Let the sunshine in
let it into your heart
let it touch your mind
let it be a part of you
let the sunshine guide
your earthly life path

Let the sunshine in

Lets Have A Party

LETS HAVE A PARTY

Lets have a party
Round the clock
J&B on the rocks
Women so pretty

Dance through the night
Tap the floor
Until feet sore
Keep an eye on your knight

Laughters and drinks
Rock'n Roll
Do not fall
Cheeks now pink

The feeling is right
Music turns me on
Bacardi Rhum
Lights are too bright

Hip hop or twist again
Give me a bargain
Lets have a party
Till night comes to an end

Life Forever

We are meant to live together
Husband and wife forever

Young and so in love
Passionate nights ahead

Motherhood takes over
Sparkling parental joys

Baby's dear cries
How lovely his smiles

Sensible existence
Complete with children

Honey are we happy
Just like our puppies

Youth and years disappear
Wisdom and respect appear

A long road not really straight
Scattered burdens and weights

Look backwards grateful
Keep being faithful

We are meant to live together
Husband and wife forever

Old and still in love
Passionate eternity above

Life forever

Listen To Our Hearts

LISTEN TO OUR HEARTS

Listen to the beat of our hearts
It means will never be apart
Pieces might get broken
Warmness lost or stroken

Listen to our hearts emotion
Lasting each other's devotion
Winter's cold outside
Summer's heat inside

Listen to our hearts scanning
Faith and love is the winning
Blow away the sorrows
Happiness I want to borrow

Listen to our hearts inner calling
In my arms you should be falling
Don't be the one to say never
As tonight might be forever

Looking Out My Window

Looking out my window

Looking out my window
Lake's smoothness appeals
Like a giant silver mirror
Dawn awakes our senses

Sun sparkles lavishly
Within inviting waters
Sailing boats glide
From one edge to another

Looking out my window
Reflecting on water's surface
Mountains tops so majestic
Covered in a blanket of white

Stunning image of a sky
Rosy blue and so bright
What a fantastic magical sight
One could almost cry

Looking out my window
Beaming with delight
At the sunset happening
Takes over evening and night

Looking out my window
Every day on I keep on
Watching offered sceneries
Brightening up my mind

Looking out my window
I feel serene and calm

Lord Of He Dark

Lord of the Dark

Lord of the dark
Knight of the king
Templar of many forbidden sins
Track the setting light of night
Into demons hot embraces
Devils spills its tentacles of lust
Pleasure of hellish temptations
possessed beyond redemption
too late for raising resistance
evils power overwhelming
strange geared devices
love vanishes into darkness
new sensations recover secrets
crusading for a new found one
out of this earthly groovy ground
longing stronger than ever
finally reaching salvation
thanks to the

Lost My Faith

Lost my faith

Lost my faith
This month of October
Strange mood overcomes
Black birds teasing
Nothing seems easy

Lost my faith
Where is the breeze
Fill me with hope
Emptiness grows
As well as sorrow

Lost my faith
Somewhere I'll go
Find path of happiness
Throw grief and tears
But feel hunting fear

Lost my faith
Thought was a friend
Another painful blow
Nothing is real
Such a painful waste

Lost my faith
As my feelings were true
Now have to go on
Try to forget you
Even so I am hopelessly blue

Lost my faithin mankind

Love Is Like The Wind

love is like the wind
in constant movement

constant movement
love is like the wind
centuries after centuries
love repeats itself
in the vagueness of this universe

constant movement
in this incomprehensible universe
love is like the wind
invisible intouchable in
this fascinating world

fascinating invincible
attraction destruction
happyness sadness
its love that carries
this constant movement
like the wind

Love Is...

LOVE IS

Love is god's creation
And the devil's damnation

Love is what all human needs
Some don't conceive the seeds

Love keeps us in motion
Until senses in comotion

Love is able to kill
If evil's will

Love is such a wonder
lightning and thunder

Love can fill the soul
Fills up a golden bowl

Love is humanity's fate
Bury the powerful hate

Love is forgiveness
Come back to witness

Love is to share
What you can bare

Love can't be described
Just take on the ride

Love is what keeps us strong
As it goes on and on

Love is forever
life's pounding heart

Love Like Sea And Salt

Love like sea and salt

Love is an invisible thread
Our life's spiritual guide

Love doesn't correspond to anything
It makes us feel light or heavy

Love is like a huge spiral
An universal disease a viral

Love can't be escaped by anybody
It is anchored deep in our bodies

Love one day hatches you
One and all fall into the trap

Love has such a beautiful impac
Fill up with happiness your bucket

Love can also be a game quite cruel
An eternal fanatical duel

Love happens all over the world
Hearts of all people get bound

Love is meant to be eternal
Same as the sea and its salt

So let me tell you
Love caught me and you
You are the ingredient I desperately need
The tasty salt
To last through this life

Luxury Of Simply To Be Alive

Luxury of simply to be alive

The oceans beautiful rising waves
Licking the long white sand shores

Tip toe into the cool wetness
What a good feeling of wellness

Luxury of simply to be alive

The gardens blooming flowers
Willows stretching like towers

Feet naked over the moss
Having a nap on the grass

Luxury of simply to be alive

The mountains top peak
From under one can feel weak

Climbing up the steep trails
Can you still hear the quails

Luxury of simply to be alive

The city's most bustling business
People mostly on and on restless

The fields lovely green or yellow
Fruits on trees seem fully mellow

Luxury of simply to be alive

The most humble and simple things
Can make the most luxury of life

Mains Caressent

MAINS CARESSENT

Infinie douceur de caresses
On se languit en paresse
Sur la peau luisante veloutée
Les sens en total dérouté

Pris dans le gouffre
Transporté par un souffle
Sur un nuage d'ouate
Les corps moites

Rien ne semble important
Les amoureux sont craquants
Langage suffisante des yeux
Pleins d'inestimables vœux

Nudité joliment provocante
Baisers haletants
Flots de doux soupirs
L'amour se fait rougir

Berceuse de tendresse
Que la nuit apparaisse
Noyé toutes les sagesse
Mains d'amante caressent

Morhardt Carmen Mencita Monoi Angel

Mais Pourquoi Mon Amour

MAIS POURQUOI
MON AMOUR

L'amour a mal
Mais pourquoi
Un jour l'euphorie
Elle t'embelli

Fidélité va de soi
Mais pourquoi
Polygamie un interdit
Quoiqu'au quotidien elle se vit

Aimer d'amour sincère
Mais pourquoi
Pas si facile que ça
La tendance par ci par là

L'être humain volage
Mais pourquoi
Eternelle attirance
Amour sans guidance

Les mots doux résonnent
Mais pourquoi
L'allégresse t'envahit
Sur le visage se lit

On perd la tête
Mais pourquoi
Les yeux pétillent
Et le corps frétille

Aimer donne envie de danser
Mais pourquoi
Un jour la chorégraphie s'arrête
Et la musique d'amour s'en va

MAIS POURQUOI

MON AMOUR

Morhardt Carmen Mencita Monoi Angel

Memories

Memories

Memories can be
Sweet or bitter as berries
Swallowed into our mind
Pick the red ripe cherries
Savor them in a sort of kind
Memories to devour
Emotional effluvia
Remembrance so fluvial
Nothing ever restores
The olden peaks of love
Felicity of thoughts
Let not fly away the white dove
Memories not to be fought
Dreamcatcher's residence
All living souls feed by them
Preserve their gone evidence
Memories of past years folded up
Never to be smoothed out
Tailor made for each person
Since only a toddler once
Transcendental meditation
What are memories all about

Millions Of Water Drops

drops of water
millions of drops
Falling down the rocks ☐

Millions of water drops
Glittering in the sun
Shining like pearls

Millions of water drops
Ending as a river
Finding way to ocean

Millions of water drops
Creating childrens happiness
Laughter and joyfullness

Millions of water drops
Soon will tide reach
White long shores

Millions of water drops
Animating Waves
into forming caves

Millions of water drops
splittering from above
till reaching top of the hill

Millions of water drops
Without them no sound
No whispers of the living

Millions of water drops
Watch the clearness
From crest to earth

Millions of water drops
For tribe's best
Beware of waste

Millions of water drops
Treasured should they be
As belonging to all humanity

Miss You

Since you are gone
Hour by hour just agony
Everywhere I hear your voice
Why this choice
Miss you

Whatever I do
I am thinking of you
You are all over
Can't find any cover
Miss you

Darling I do remember
Our dancing in the chamber
Full of laughter and joy
You the ever grown up boy
Miss you

Your solemn face so dear
In my mind reality isn't clear
Why this deadly silence
I feel like a tragedy off balance
Miss you

Memories all over the place
Daily duties break me down
Wherever in this place I go
There is a whisper of you
Miss you

Love Joy Laughter
Sound of voice
Familiar shadows
All of this is you
And I'll forever Miss you

Moon And Sun Love Story

MOON AND SUN LOVE STORY

End of the day
No other way

Lady Sun goes to hide
Mister Moon shines bright

After sun burns
Moonlight turns

Never ending ritual
Life's marital or burial

Moon wants to meet his love
Which is the ever sun above

Mister Moon drops his endless tears
As millions of glittering stars

End of the night
Dawn's beautiful sight

Moon must fade
Sun gets awake

Sun seems to sparkel with love
Like a huge golden dove

Moon's ever dark sadness
Sun's eternal light gladness

Never ending story
Of an impossible love

Morhardt Carmen Mencita Monoi Angel

Moon Tribute

World of the night
What a wonderful sight
Moon white misty or silver
Senses can start shiver

Luna Lune Lua or Moon
Any kind of love might bloom
Luminous shadow streak
Over the lakes water peak

Sit meditate enjoy the sky
Dear one you are allowed to cry
Full Moon sooth and milky
Touches on skin soft and silky

Moon tune why be blue
Feelings can come so true
An embrace in your arms
Moon kiss wont harm

World of the night
What a wonderful sight
Misty silky or milky
Moon is the eternal light

Mother's Soul

Mother's soul

There in my heart there is a pain
Which I should try so hard to contain
My own flesh and blood left the nest
Telling me...mother now you have to rest
Take your own life into your hands
And start exploring moving sands

Mother wishes that her birds wont fly too far
With their new freedom they feel like reaching stars
Suddenly deep motherly love seems so forlorn
Just as when they held for the first time their newly born
Life's clock ticks eternally on its way
Nothing can make it stand still and stay

Anywhere children's destiny might bring them to
Mother's soul is their home all life through

My Dear Lion

My dear lion

Where are you from my dear lion
I might think from Zion
Surely not from Zimbabwe
Have you ever met the Che

Shaking your beautiful lion mane
Hopefully it's not in vain
Regardless of any danger
He howls out his raging anger

He is a lion of a specimen so rare
I wish I were in his brave care
Looking down from his height
As if nothing or little I weight

His lion eyes a kind of dark brown
In which I want to get drowned
Beware of his ferocious stare
Which invites me to dare

To stand up to this lion so tough
With manners quite rough
Nature provided him with power
His lips on mine finally he lowers

Where are you going to my dear lion
Watch out for the traps iron
I beg you come follow my way
As I wish you won't go but stay

Morhardt Carmen Mencita Monoi Angel

My Hair

MY HAIR

Don't you ever dare to cut my long hair
It would just not be fair
It does make me feel dressed
And seems like a fluid caress

Don't you ever dare to steal my hair
Having long braids of a pair
Wavy cascades down the spine
Think of drinking some lovely wine

Don't you ever dare to pull my hair
Only if lost in real despair
Using all your tender fingertips
On some sensual inviting hips

Don't you ever dare to blow my hair
Even so you can't stop to stare
Snaky curls bustling around
Look at them but keep to the ground

Don't you ever dare to touch my hair
If not being able to take care
Colors and strands of hazelnut
For sure it will never ever be cut

Don't you ever dare to comb my hair
It's as floating in the breezy air
Fluid like a woven golden lace
Lovely long and shiny embrace

My hair dresses me nicely
My hair is my jewellery
My hair belongs only to me

Nature's Blessings Spring

Nature's blessings called Spring

Nature's blessings
Cherry trees in bloom
Cascades of colours
Floating into my room

Nature's blessings
Eruption of new life
Everywhere around
It's the eternal bound

Nature's blessings
Spring's awakening
Fills one with new hopes
Melting away sorrow slopes

Nature's blessings
Shy scarce sunbeams
Sense of survival
Swallow's arrival

Nature's blessings
Flowers popping up
It's time to hold on
For young and old

Nature's blessings
Cycle of every year
Winter months we bear
Now earthly warming

Nature's blessings
Worth all the gold
Nature's natural gift
To life we all hold

Nature's blessings called Spring

Nobody Knows For Tomorrow

NOBODY KNOWS FOR TOMORROW

Nobody knows for tomorrow
What's gonna happen
Happiness or sorrow

Today like any other day
Lets do enjoy tonight
Under the shining moonlight

Yesterday has gone forever
Even if we think we are clever
No ability to catch the past

Be aware of being alive
Such a heavenly sign
To feel our own breath

Treasure the present moment
Second by second we get old
Until life is to be fold

As nobody knows for tomorrow
What's gonna happen
Will you laugh or will you cry

Nos Baisers

NOS BAISERS

Nos baisers interdits
Passion reconquise
Douceur envahissante
Volupté grandissante

Nos baisers volés
Instants de douceurs
Emotions profondes
Pensées envolées

Nos baisers fous
Le présent flou
Danse virevoltante
Manière enivrante

Nos baisers langoureux
Des premiers jours
Baume sur les lèvres
Adoucit la sève

Nos baisers si chauds
Commencent à l'aube
Femme enlace
Homme prélasse

Nos baisers d'éternité
Accepte avec sérénité
Pas sans glamour
Ce signe d'amour

Nos baisers sont
Pour toujours

Nothing Can Ever Last Forever

Nothing can ever last forever
Or maybe the only real life is in heaven

The sensitive taste of your lips
Wandering thoughts about lovely hips

Wanting to capture your grace
As days and days pass in a race

Awakening by your side means light
Sure the future hours seem to be so bright

Having you at my side ...fairylane
As living in a huge and dear castle sand

To live a life without you....is agony
To be able to touch you ...feels harmony

Can't really stay by myself and alone
As nagging languor creeps along my bones

The feeling of being left behind
Makes me mirthlessly and unkind

The thought of your loss
A burden as heavy as an iron cross

Nothing can ever last forever
Or maybe the only real life is in heaven

Once A Year A Very Special Day

ONCE A YEAR A VERY SPECIAL DAY

Once a year a very special day
No exception called for everyone
Birthday
One can't change this date of day
One can't change the passing years
But each one can choose its own way
Of making his kind of living
Enhance the day by positive thoughts
Enhance the day by chasing badness
Open your heart
Reach out for friends and others
Reach out and helpfully bother
Enrich your days
In thoughtful thanks for this life
Even though not always easy
Life is our most precious gift
Given to us by caring mothers
Cycle of nature's delightful ways
Blessings and love for you my dear
In a basket full of wonderful wishes
As without denying another year splits away
And as once a year a very special day
Can be called your
Birthday

One More Time

One more time

One more time
Like the very first time

One more time
To love you

One more time
It isn't a crime

One more time
To kiss you

One more time
As if a life time

One more time
To feel you

One more time
In your arms

One more time
Commit a sin

One more time
To look at you

One more time
Just be one

One more time
As we don't have time

Paradise - Without You

PARADISE - WITHOUT YOU

Without you

Here I am alone again
Eyes shut close
Dreaming of paradise
I wish to faint or am I insane

Imagine just for one day
To be in paradise with you
Free and wonderful
Taking time to love

No day to day worries
As in paradise with you
Loosing ourselves
In long and tender kisses

Imagine just for one day
To be in paradise with you
Angels light caressing
Can you feel the blessing

No night to night burden
As in paradise with you
Light and softness
Twirling in crescendo

Imagine just for one day
To be in paradise with you
Sensuality coming true
As I am here with you

No it can not be true
Paradise doesn't exist
Broken heart hurts
Eyes wide open

Dream comes to the end
Paradise fades
Into a soft shade
And I am here alone again

Without you

Morhardt Carmen Mencita Monoi Angel

Passion

Passion

One day you wake to
Be possessed by a new passion
No resistance from me

Here we go again
Clouds obstructing my brain
Dreams come true

Shattering all my values
Gone the normality
Of traditional life

Opening up my mind
Shutting down the laws
Of this old lead life

Starting to live again
Feeling passion
Arousing in my veins

Why me why you
How did it happen
What will come next

Nothing really matters
Even though it should not be
I am possessed by a new passion

Morhardt Carmen Mencita Monoi Angel

Passion Of Tomorrow

PASSION OF TOMORROW

The passion of tomorrow
The lost passion for a stranger
The new passion of all days

The passion of tomorrow
Won't be the only sorrow
Kissing you makes me feel dizzy
Wondering why are you still busy
Let go of yourself surrender
Open up to the sweet offender

The passion of today
Won't let it go away
Even though forbidden
Keep the entangled hidden
Wish for your embrace
I feel like being in a haze

The passion of yesterday
Belongs to other days
Walks on the shore are gone
Watching the sun go down
Flows of tears were shed
until my heart was over fed

The passion of tomorrow
I just want it to grow and grow
I get troubled by love night mares
Torn between the no or do I dare
For you I feel this nagging hunger
Striking me like hundreds of thunders

The passion of tomorrow
The lost passion for a stranger
The new passion of all days

Morhardt Carmen Mencita Monoi Angel

Pour Toi En Ce Jour De St Valentin

pour toi qui est le cheri de mon cœur
je suis ta femme et ton âme sœur

null amour est infaillible
pourtant le notre est crédible

tant d'années ont passées
les sentiments pas chassés

offres moi une fleur nommé lys
car pour toi je suis sans artifice

aujourd'hui j'ai juste envie
de te dire jouissons ensemble de la vie

car ceci est un précieux cadeau du ciel
à déguster et savourer comme du miel

pour toi qui est le cheri de mon coeur
je suis ta femme et âme soeur

devant l'éternel

Morhardt Carmen Mencita Monoi Angel

Pour Touours

POUR TOUJOURS

Je te caresse
Sans te toucher

Je t'effleure
Avec mes yeux

Douceur infini
D'une union

Tu te mets à nue
Sans te dévêtir

Tu te dévoiles
Sans aucune retenue

Douceur infini
D'une union

Il frémit plein de désir
Il sait ce qu'il veut

Elle se prépare à l'abandon
Elle et lui son amour

Douceur infini
D'une union pour toujours

Precious As A Child

precious as a child

nothing should be
more precious
than a child

nothing should be more
contagious than a smile
of a child

nothing should be
more cared of
than a child

childrens innocence
so often shattered

childrens love
so often flouted

nothing should be more
of importance
than a child

nothing should be more
powerfully loved by us
than a child

childrens spontaneity
so often trampled on

childrens forgiveness
so often ignored

nothing should be more
cherished in this world
than a child

nothing should be more
hugged with affection
than a child

tell me stranger
what is more
beautiful and precious
than any dear child

Rainbow Wishes

Rainbow wishes

Have you seen high up there in the very dark sky
Shining through stormy drops of heavy rain
Appearing like a colored stream
A rainbow inviting our imagination
To make us wish wishes full of dreams

Looking up there into the very dark sky
Seems as wonders could take place
Where does the rainbow come from
To make us wish wishes full of hope

Blinded by lightning up in the very dark sky
Us humble humans take shelter
Measuring tremendous strength of nature
To make us wish wishes full of caring

Astonished eyes search the very dark sky
Wondering why such beauty from above
Touches lightly our beloved earth
To make us wish wishes full of love

Watching slowly the incredible shades
Now definitively fading far away
As the rainbow disappears into cloudy sky
To make us wish wishes for a good earthly life

Raindrops Are Heavenly Signs

Raindrops are heavenly signs

Raindrops falling on our heads
Silky grey color of the mead

Raindrops pouring down
Streets getting drowned

Raindrops nourishing nature
Rivers getting captured

Raindrops one kind of treasure
There is no other way to measure

Raindrops children's happiness
Who would have guessed

Raindrops stilling our thirst
Keeping us from the worst

Raindrops after sunny days
Freshens us in many ways

Raindrops can make us feel sad
But we should not get mad

Raindrops soaking our souls
Looking out for a new goal

Raindrops tapping on the roofs
Sounds like the horses hooves

Raindrops from heaven
Touching blue hearts

Raindrops for eternity
This means serenity

Raindrops keep on falling

Forever on us calling

Raindrops are heavenly signs

Rayon De Soleil

Rayon de soleil

Rayon de soleil
un disque qui se raye
libellule jolie pas de danse
en surface de l'eau
se fige comme un mot
suspendu dans l'air
tout deviens si clair

Rayon de soleil
jamais vraiment pareil
nos chemins se croisent
l'éternel partage
notes de musique résonnent
ombres et lumières foisonnent

Rayon de soleil
qui nous réchauffe
brûle nos nombreuses peurs
finis les querelles de soeurs
la danse de la ronde
sous une verdoyante rotonde

Rayon de soleil
illumine la grisaille
null songe de faille
sursaut de notre terre
rêverie de notre vie
échos de nos cris

Rayon de soleil
caresse douce et précieuse
pour notre terre si spacieuse
fais nous revivre
ou simplement
aide nous à survivre

Rose

Rose

Par hasard les regards se croisent
De haut en bas se toisent

Coup de foudre imminent
L'amour pétrifiant

Comme une fleur sauvage
Racine cherche ancrage

Eclair de flèche figé
Cœur tendre brisé

Sentiments d'impuissance
Profondément intenses

Passion exubérante
Danse virevoltante

Au clair de la lune pleine
Nos cœurs sont en peine

Ecuelle se remplit de larmes
Rose fleur d'amour qui se fane

Run Run

Run Run

Run my dear friend run
Leave rules behind
lets have some real fun

hip hop on the dance floor
tap tap on the side door

hands loudly clap
mouse falls into trap

hush hush I whisper
isn't she a lovely sister

hey where do you come from
aren't you called Tom

maybe I should sing a song
do you think this is wrong

once in a while
lets just get wild

life is too short
so don't get bored

cute monsterly laughter
tears on cheeks after

run my dear friend run
leave rules behind
lets have some real fun

Sad Children

Children treasure of this world
born innocent and dear
their vision of life seems clear

children some never get hugs
abused and used
nobody offers milk in a cute mug

children born into wars
slave soldiers
forever burning scarfs

children sad looks
education forbidden
no time to read books

children calling their mothers
family meaning has no sense
being hustled from one to others

children eyes of wrath
no food on the plate
many starving to death

children eyes full of pain
when trampled
all seems in vain

children living in horror
of daily life
as they only know sorrow

children if only I could
just for one whole day
have the power of God
than I really would
show you the meaning of
freedom and love

children forgive me
I am not God
but I really do wish
that each one of you
one day will be dearly
loved and hugged

San Detour Je Te Proclame Mon Amour

JE TE PROCLAME MON AMOUR

Sans détour je te proclame mon amour
Des l'instant de ce regard croisé
Mon cœur s'est enflammé à mon tour

Cadeau inestimable de la vie
Recevoir et donner sans retenue
L'envie de laisser échapper un cri

Ressurgissent les émotions pures
Que le plaisir d'aimer subsiste
Un fruit à déguster bien mure

Emporter sur un nuage de joie
Sensations de béatitude
Le destin t'a choisi ma proie

Les mots doux en caresse
Pour préparer la souche
Loin de nous la sagesse

Comme une vague onctueuse
On se languit en paresse
Sous les mains soyeuses

Par le toucher on s'explore
Que la vie nous sourit
Avant que l'histoire se clore

Sans détour je te proclame mon amour
Dès l'instant de ce regard croisé
Mon cœur s'est enflammé pour toujours

Sang Et Ku-Klux-Klan

SANG et KU-KLUX-KLAN

Rouge est le sang des noirs
Noirs sont les pensées du KKKlan

Rouge est le sang des jaunes
Noir est le poteau du KKKlan

Rouge est le sang des bruns
Noir est le châtiment du KKKlan

Rouge est le sang des métisses
Noir est le fouet du KKKlan

Rouge est le sang des blancs
Noir sera le destin du KKKlan

Rouge est le sang de tous les hommes
Et rouge comme ce sang
Est la couleur de la honte
En ce qui concerne
L'existence du KU-KLUX-Klan

Seduction Flower

Seduction flower

Holding hands forever
Folding them together
Squeezing our fingers
Chanting like a singer
Blowing a breeze on offered lips
Kisses on each fingertip
Tender touches on hair
Brushed into piled pair
Love feelings unpredictable
Getting further on addicted
Your very own perfumed smell
I would follow into any cell

Watching nicely shaped legs
Going up stone steps by steps
Reaching love ways of pleasure
In finding this new treasure
Some glowing intensive smile
Seems to be a wonderful promise
This blossoming colorful flower
Is getting me into her power
Though knowing if into her capture
I shall be overwhelmed by rapture
She might drive me insane
My refusal is totally vain

I picked the sweet seduction flower
Exactly knowing her soft power
Ever since beginning turmoil in my blood
Nothing can t change my tormented mood
Looking at her desirable shape so slim
I want to be the one.. the him
Her wonderful laughter so teasing
Please don't ever make it ceasing
This seduction flower is stunning
One keeps on the running
I want to be the only one to size

To capture and win the desired prize

the sweet colored seduction flower is in my power

She Smiles

She smiles

She smiles
Wondering how to enhance
This handsome strangers eyes
Enchanting behind the mask
Not really an easy task
Her smile once sorrow
newly got borrowed
from a deep found dream
silky as white cream
give hidden chance
to the most troubled smile
the smile of new desire
creeping along heart wire
aiming heartily ignorance
to tore a welcome smile
from the blushing cheeks
of this handsome strangers eyes
blissful as ever the feeling
of some sudden new pleasure
she smiles and tries
her most seductive smile
power of charm meaning no harm
she just smiles to keep
the glow in his eyes warm

Shivering With Passion

Shivering with passion

Shivering with passion
As soon as his lips on mine
Lust creeps up my whole spine
His large hands playing on me
All inches of body aching for more
Keep up your powerful skill
Withdraw my resistance out
To make me without any will
Just panting for him

Shivering with passion
Total body compatibility
No other way of serenity
Let it be let lust overcome
Any hidden upcoming fear
Throw and shut it out of mind
This passion is burning me blind
his touching with such dexterity
Absolute tremendous sensuality

Shivering with passion
For the moment nothing counts
Than feeling his real desire
Taking my body as part of his
Demanding responding his way
Waves of pleasures splashing
Into my very internal caves
Nobody ever did it so right
Till his soft open lips aroused mine

Shivering with passion
When starting to wet within
Asking for more to be explored
Pit in my stomach vibrations
Tongues searching to restore
Lost sensible sensations

Stretching in wonderful ways
Whole of myself arching
In pain to absolute surrender

Shivering with passion
Only once in lifetime can one find
Such a total flesh connection
This thirst and hunger of mine
To renew the encounters
More and many more times
How will I ever have the strength
To leave this outbursting lovemaking
Once consumed behind

I shall always shiver with
A certain kind of passion
When in the future surfaces
sudden warm thoughts of that
love making of the past

Si Seulement Je Pouvais Retenir Le Temps

Si seulement je pouvais retenir le temps

Si seulement je pouvais retenir le temps
Que m'emporte loin le vent
Dans les yeux du cyclone
Assise sur le seul trône

Les sages de ce monde
Le globe lui tourne en ronde
Sans cesse et sans faille
Ou veux tu que je m'en aille

Vent souffle et tamise le feu
C'est cela la maison de dieu
Miséricordes et tous les pardons
Pas à pas sur les chardons

Si seulement je pouvais retenir le temps
L'univers serait sans bain de sang
L'amour du prochain pas en vain
Mères donneuses de seins

Joyeuse fête sur cette terre
Fleurs de lys sous les serres
Viens donnes moi ta main
Que nous semons ces grains

Si seulement je pouvais retenir le temps
Jeunesse et volupté en abondance
Sagesse et guidance dans l'espérance
Fécondité et joie sans plus d'errance

Si seulement je pouvais retenir le temps

Silly Poem

Silly poem

Feeling as free as a mocking bird
When listening to your whispered words

Feeling as hard as a sand stone
When crunching the chicken bone

Feeling as strong as as an ox
When going into the ring to box

Feeling as huge as a whale
When I stand on my scale

Feeling as silly as a cow
When tending to bow

Feeling as soft as a pillow
When climbing the willow

Feeling so very silly
When I ask little Willy

is my poem really so silly

Sing A Song For You My Love

SING A SONG FOR YOU MY LOVE

A lovely song a love song
Sing a song for you my love
Sung in a wonderful soothing voice
Sending a melody message by the dove
Invites you to take your choice

Catch this ultimate chance to share
Truly wherever you will be I'll dare
Musical notes show how much I care
To lose you I wouldn't bare

Never ever let me down again
Open up the shutters of your heart
Don't ask for another bargain
Pull out with strength the poisoned dart

Can this time be meaning for ever
Love has got such strangely ways
No understanding even though being clever
Deep different emotions filling our days

Want to sing a song for you my love
Higher notes song in my voice
Your love places spirit high above
Counting heartbeats final choice

Sing a song for you my love
A lovely song a love song

Solstice Summer

Solstice - Summer

Solstice of the new summer
Hear the golden drummer

Is it really such a wonderful day
My hands are full of dirty clay

Love affaires are blooming
Cameras eyes zooming

Solstice of the new summer
Hear the iron hammer

Is it really the longest day
Hope you will come my way

Love is like a huge wave
Can anybody be save

Joyful sounds out of the chamber
Keep on the turning tumbler

Solstice of the ending winter
Solstice of the new summer

Stranger

Stranger

There is a stranger on my mind
I wonder what's his kind
Would like to be a bee
And able to sting his curiosity

Telling myself this is vain
As can only bring some pain
Maybe he isn't at all for me
But after all he might be

Thoughts turning confused
As my requests getting refused
Feel like not giving up
Good sense says to stop

Whole of mine in turmoil
His picture black as coal
Why am I so fascinated
This situation how it got created

There is a stranger on my mind
Go on wondering what's his kind
Should tell myself its hopeless
But no way I couldn't care less

Would really like to be a love bee
And sting him until he surrenders to me

Succumb To Desire

SUCCUMB TO DESIRE

The look means desire
Feelings like an electric wire
Inside total explosion
Heartfull emotion

Blessed be the groom
Halfway to the moon
Man creates the art
Woman takes his heart

Love is to be desired
Hope wont expire
Is it Heaven or hell
Like being a dwell

Lovely hunted face
With a hint of grace
Senses in creation
Take offered salvation

Stairway called desire
Never ending love fire
Feelings like a lavastream
Let burst out hot steam

No escape from desire
Captures soul and body
Whirls around your senses
Till you are without defenses

And succumb to fullfill your desire

Morhardt Carmen Mencita Monoi Angel

Such Strange Blue Eyes

Such Strange blue eyes

Such strange blue eyes
Yours!
Are having their effect on
Mine!
Dear, can you tell me why?

From the very moment
I got burned by their blue light
My feelings were like a tidal wave
Overwhelming my soul!

Am I lost to heaven or hell?
Are we angels or demons?
Who can tell?

This duality of mine, can scary
Me from times to times!

These few words, I wish you to know
In no ways would I ever dare harm you
Only happiness should find your way
Truly hoping it for you!

As I let go my thoughts
Wish to find the right way to express
That the moments we can share
Are moments nothing will ever erase

Such strange blue eyes
Yours!
Have the power
To burn mine!

Sunbeams

Sunbeams

Let the sunbeams
Fill in your heart
So they will become
One of your part
Might they
Lighten up the hours
Trough stormy days
Hold them tight
Until set of night
Millions of sunbeams
just like in a dream
wish I could offer
so you would never
have to suffer
in your life again
sunbeams as a gift
within my wishing list

Take It Gently

take it gently when you want your feelings go
everything that comes at you
a shock a hurt a blow
take it well and hide
the turmoil of the pain within

give back good for evil
its the only way to win
never give yourself away
though smarting inwardly

all in time the truth comes out
and some day you will see
how you saved the situation
by standing still
curling tongue and temper
by an effort of the will

Morhardt Carmen Mencita Monoi Angel

Take The Courage

Take the courage

Take the courage to fulfill
With an effort of your will
This emptiness of space
Left by the shadow of your grace

Being entirely your possession
This is the height of obsession
Completely lost in our love
Bursting heat like a stove

Scattered pieces heartbroken
Haunted dreams awoken
Help soothe the soreness
Souls mind wandering aimless

nowadays feeling hollow
This awful nagging sorrow
Reminder of missed rounds
Opening up ancient wounds

Take the courage to start again
Let this life not become vain
Carry your burden with lightness
and you will reach brightness

Morhardt Carmen Mencita Monoi Angel

Tears - Why Dont You Let Me Cry

Tears -why wont you let me cry

Tears dwelling out of my eyes
Our own emotional signs
Why wont you let me cry
Too hard to keep them inside
Tear drops keep falling on cheek sides
Why wont you let me cry
Dear tell me who gave you sorrow
Have you no happiness to borrow
Why wont you let me cry
Just let those tears surface
Not matter if it scares
Why wont you let me cry
Don't drown into sadness
It might become madness
Why wont you let me cry
Its always hard when over
Heartache not tender or sober
Why wont you let me cry
No matter how hard I try
Tears dwelling out of my eyes
So why wont you let me cry

The Day I Am Gone

THE DAY I AM GONE

The day I am gone
Remember moments
Sweet and bitter ones

The day I am gone
My soul will linger
As life for you goes on

The day I am gone
Fill the empty space
With love for others

The day I am gone
I know you will cry
But still continue to smile

The day I am gone
Another life blooms
Somewhere around

The day I am gone
Thank common destiny
Having chosen our unity

The day I am gone
Follow new horizon
And open your mind

The day I am gone
I want you to know
My true love was always you

The Kiss

THE KISS

The kiss you are giving
Or the one you are receiving
The kiss you are enduring
Or the one you are savoring

The kiss you are feeling
Or the one that's healing
The kiss you languish for
Or the one that's soothing

A kiss means sharing
or does it mean daring
a kiss is an offering
or is it demanding

a kiss might be an invitation
or is it a push to surrender
a kiss can be lovely and pure
or full of devilish lust

a kiss given with soul and heart
is our utter loving part

The Little Child And The Small Bird

THE LITTLE CHILD AND THE SMALL BIRD

When I was a little child
Once in my hands
A small bird I held
Maybe too tight

The small bird didn't move
It had just died
And all now I did
Sorrowfully I cried

My dearest child
Mother gently smoothed me
Your love must have been too strong
The little bird couldn't hold on

And so life goes on
But never could I forget
The little bird's tragic end
When I was a little child

Now when spending time with you
My fear is the same
As my love might be too strong
And I am terrified
Like a little child

The Lovesick Maiden's Tears

THE LOVESICK MAIDEN'S TEARS

The lovesick maiden's tears
Having a cloudy silvery effect of
Glittering shining short lived diamonds
Stroking lovely wet rosy colored cheeks
Feeling heavy emotions and weak

The lovesick maiden's tears
Filled by yesterday's memories
Remaining through coming time
They will absorb her day and night
She won't have the strength to fight

The lovesick maiden's tears
Her eyes do not see the rising sun
Only her beloved oh dark knight
Who's belonging isn't earthly world
But what a cruel handsome sight

The lovesick maiden's tears
While lying on the smooth grass
Feeling the weight of burning loss
Pulling her into cruelest moods
Knight vanished back into black woods

The lovesick maiden's tears
Wet the tightening wedding gown
From first sight she knew and felt the fear
That her kind of unbearable dark love
Can only hurt and never be real

The lovesick maiden's tears
Having a cloudy silvery effect of
Glittering shining short lived diamonds
Stroking lovely wet rosy colored cheeks
Pain and loss forever is her fate to bear

The Power Of Love

POWER OF LOVE

The power of love
Keeps us going
Whole of Humanity
Show us some charity

The power of love
Keeps mothers strong
When children needs
And hundreds to be feed

The power of love
Keeps lovers on
Say the words
And chant the birds

The power of love
Keeps fathers will
When daily duties
Creep up like hills

The power of love
Keeps all of us
Bounded to eternity
Without the power of love

no wonder of living

The Season Of Spring

THE SEASON OF SPRING

the season of spring
weather seems to sing
lovely lovely days
are coming our ways

the season of spring
blooming blossoming
of nature of all kind
let roots unbind

the season of spring
birds unfold their wings
diving high into sky
wish one could fly

the season of spring
careful hearts love sting
reaching out towards others
some persons might bother

the season of spring
nice sound bells ring
new wave new style
faces have on a smile

the season of spring
an new awakening
busy humanity on earth
as if it's a new birth

listen listen to my words
the season of spring is near
now a look into your lovely eyes
and one can see spring is already here

The Unknown Man

THE UNKNOWN MAN

For the tall unknown man
Who keeps hunting my mind
I always wonder who you might be
Just tell me your first name
To ease my inner turmoil
Weeks and months are passing
And I more and more
Think about you
the tall unknown man
Even though I know I shouldn't
I look out to have a glimpse at you
Now I take the opportunity
I must give it a try
This is as if another me is pushing
Do not judge me wrongly
Please be assured
no intention to bother you
Maybe you have an idea
Who I might be maybe not
Forgive my impudence
This isn't naturally me
But I take this one and only chance
To get in touch with an unknown man
Who keeps hunting my mind
So please be kind

There Are Moments I Feel Blue

There are moments I feel blue

There are moments I feel blue
This just cant be true
Out of the dark rainy sky
Rocking anger made me cry

Why this for me why not for you
It happened without a clue
Monsters of badness
Pulling over the sadness

Give me back the chance
In a way this day to enhance
Your deep silence remains
Wordly madness maintains

Truly but neverless surely
Sorrow comes over purely
Chasing black ravens
Into forlorn haven

There are moments I feel blue
I don't want it to be true
Out of the lightening sky
A sign from you made me smile

This Look In Your Eyes

This look in your eyes

This inviting look in your eyes
Cant believe it is only lies
the intensity of your stare
I am hushed to care

This stunning look in your eyes
Teasing me in so many ways
Such a lovely colour so bright
Makes my cheeks glow light

This mischievous look in your eyes
Gives me a sweet as a bribe
Feeling suddenly beautiful
The day seems cheerful

This darkening look of your eyes
Which makes me to see
Not all of you might be delight
May I after all not be right

This hunted look of your eyes
Keeps searching the air
Until touched by remembrance
A plunge into despair

This lovelorn look in your eyes
Fills mine to tears and cries
No wonder love loses its breath
No escape oneway to death

Three Magic Words

Three words inestimable
Worth all fortunes of this world

Three words reassuring
Three words enchanting

Warming our hearts
So often too solitary

Three words so simple to pronounce
Three words to be able to please

The ones we cherish most
The ones we never want let go

Three words which make exist
The whole of our universe

Three words to express
Our love to our next

Three words finally not so easy to say
Nevertheless of an intense beauty

Three words like a smooth caress
Three words chasing sadness

Three simple words
Three magic words

I love you

Today Might Be A Rainy Day

TODAY MIGHT BE A RAINY DAY

today might be a rainy day
but there is another way
to brighten your mood
towards others be happy and good
think of giving love
like the heavenly white dove

raindrops are falling
they keep on rolling
glittering like million of stars
smashed over by passing cars
why should one be sad
you are alive so be glad

rain washes dirt
without any hurt
except becoming a flood
like an angry god
he who offers us rainy days
as well as many sunny rays

today might be a rainy day
but there is another way
to brighten your mood
open up your heart
send away loving darts
spreading smiles
over hundreds of miles

even though today might be another rainy day

Morhardt Carmen Mencita Monoi Angel

Together

Together

Can we say we are together
Even though we are apart
Nothing blooms forever
Natures ways are too hard

Lifes ways are unpredictable
How can love find its path
If your heart not reliable
And your words harsh

Are you really the only one
Body and soul ooze out
Strongness for ever gone
Weakness has a good savor

This day happiness is still around
Futur seems real far away
Always think of you in a lovely sound
Every new dawning day

Asking you in a gentle whisper
As completely torn from reality
Please don't walk off today
Give me another chance to stay

I know we cant really be together
But even when we are apart
Getting lost in my blues
As wishing you were born for me

Tout Passe

Tout passe

Tout passe
secondes heures
jours et nuits
sans cesse
on se sent parfois las
le monde tourne
le coeur bat
la vie se poursuit
si douce si cruelle
si triste si belle
sans relâche
courir après l'instant même
qui passe
longue vie
santé bonheur
le voeux éternel
pour l'humanité entier
même si tout passe

Tout Simplement

Tout simplement

Qu'est-ce qui fais chavirer les hommes?
Que faut-il faire pour que leur cœur s'enflamme?

J'imagine que c'est notre irrésistible charme!
Première et meilleure arme fatale de la femme

Yeux de braises yeux de jolie biche
On vous aguiche mais pas sans triche

Déhanchements provocants de hanches
Sans aucun doute ça vous branche

Regards et gestes envoutants
Tombe dans le filet c'est si déroutant

Invitations aux plaisirs de tous les instants
L'instinct animal en nous ne résiste pas

Femmes douces femmes cruelles
Femmes dominantes femmes si sensuelles

Qu'est-ce qui fais chavirer les hommes
Tout simplement l'amour d'une femme

Trois Mots Magiques

Trois mots magiques

trois mots qui valent bien plus
que toute fortune sur terre
trois mots qui rassurent
trois mots qui enchantent
et qui réchauffent les cœurs
si souvent trop solitaires
trois mots simple à prononcer
pour faire un plaisir intense
à un être qui nous est cher
trois mots qui font exister
l'humanité toute entière
trois mots pour exprimer
tout notre amour à l'autre
trois mots pas si facile à dire
trois mots pourtant si beaux
trois mots d'une caresse douce
trois mots magiques
trois mots simples
trois mots qui te disent
je t'aime

Une Dernière Fois

Juste encore une dernière fois
Comme si c'était la première fois

Encore une dernière fois
T'aimer doucement

Encore une dernière fois
C'est pourtant pas un crime

Encore une dernière fois
T'embrasser tendrement

Encore une dernière fois
Pour le reste de notre vie

Encore une dernière fois
De te sentir près de moi

Encore une dernière fois
Se blottir dans tes bras

Encore une dernière fois
Se noyer dans ton regard

Encore une dernière fois
Savourer l'instant ensemble

Encore une dernière fois
Car nous n'avons plus le temps

Juste encore cette dernière fois
Te murmurer je t'aime
Jusqu'à mon dernier souffle

Who Are We

Who are we

Who are we to install so many rules
They should be here only for fools
Where is the liberty of each one gone

Why do we all live in a similar way
Can you believe me when I say
"be you and refuse to be part of the mould

Where will this road lead to
Is there still a part of us free
No commander will capture me

When is this going to come to an end
All this war playing of humanity
Freedom is the winning prize

Whom do we have to ask it for
Eternally nobody will ever know
Nowhere and no direction at all

What will become of our children
Future isn't rainbow color anymore
Daily struggle to save earthly mother

Whoever has the ability to truly love
Has got a treasure to carry on
Everybody has got this liberty

Who are we to doubt our enormous capacity
To overcome so many installed fool rules
And to catch back our freedom and liberty

Wind Eternal And Ever Lasting Wind

Wind eternal and ever lasting Wind
Wherever on earth..there is the element wind

How powerful the strength of the wind
Uplifting a tremendous deadly tidal wave
Pushing heavy clouds over mountain chain
Magically turning into heavy storm and rain

How fascinating the songs of the wind
Carrying up high the bird on spread wings
Looking almost like the shape of a fairy
So incredibly languishing and airy

How wonderful the feeling of decreasing wind
Blowing incessantly through the season of spring
Blooming flowers seem to shiver in a dance
As falling into a very special kind of trance

How enchanting to play with the wind
The heat blow still lingers
Kite surfs speeding up to be safe
Sails boat surfing on the crown of the wave

How subdued when watching the wind
Reminder of natural forces
Elements like earth wind and fire
For sure they will never ever tire

Wind eternal and ever lasting wind
wherever on earth..there is the element wind.....

Winter

WINTER

Winter's frozen landscape
Not easy to escape
Lingering ice drops
On the roofs top

Immaculate white and clear
Cold impossible to bear
Feel winter's breeze
Humble earth freeze

Up and down snowy hills
Rain deers keep still
Nostrils inhaling the cold
Nature ever so bold

Skating on frozen pond
Of which she is fond
Children's icy playground
Breathless sound

A cover of white snow
Footprints row by row
Sun's glittering spell
Winter's fresh smell

You And I

YOU AND I

You and I
Are meant to be together
Forever and ever

You and I
Take me in your arms
Where I feel so warm

You and I
Nothing I want more
Than being loved by you

You and I
Doesn't matter if it rains
My love only gains

You and I
Lost in our embrace
As if out of space

You and I
Love keeps up with age
Like being in a lovely cage

You and I
So many years gone by
But I sure wont cry

As

You and I
Are just meant together
Like moon and night

Your Choice

Feeling so blue
As you said
I'll leave and go

Tell me why
This is happening
Right to me

My feelings are true
Still strong
But now only blue

This blow is hard
On top of my heart
Pounding sorrow

We were one
And now done
Can't be true

I love you
This I tried to say
But in vain

You looked sad
I didn't believe
It was that bad

Feeling the blues
You left me
This sadly is true

Love forever gone
Your choice
The definite one
