Afar

Kingdom of grace what a beautiful place
She stands in disgrace
Our motherland dressed in lace

A Zulu nation fighting for a right
A nation with unity whom wanna embrace
Caught by election
(Between black and white)

Take the weapons off the children
Turn the money into stone
I don't know...

Call me black
Call me white
I don't care
I don't wanna fight
Give the people their human right

All this fighting all this hate
Bless her soul bless her faith
Time to liberate...

Benazir Bhutto

A new day is dawning
Time is closing in
God bless Benazir Bhutto

Democracy is it a sin?
She gave her life for you

The angel still lives within...

Crossroads

I take the road
Down the wayward path
Underneath the cool skies mass

Take me down
This water of stream
Until I find
Annabel Lee

I see the eclipse
Turned into torture
Even though I did never saw her

Daydream

I hear the birds music in flight
Whistling feelings of joy
Holding on forever

I'll settle down here
A little patch by the river
Maybe I'll walk across the land
To the mountains
And look down
At the valleys below

Whistling feelings of joy
Holding on forever...

Heartache

All defences are low

I'm like a time bomb

That's gonna blow

Don't come near me

I don't wanna know

A self-inflicted

Body blow

There aint no drug

I can take to cure

Heartache

It leaves me

All washed up

Up on the shore...

High On Hope

Benjamin came
Knocking
On me door

We've no need
to smoke
Dope anymore

And if you pass
me dat spliff
I will say nope nope

Because I'm
Flying high
On so much hope

Dem at number ten
And dem at Big Ben

Have promised
Us the world
Yes the World
Yet again...

Just Me

The idea of being insane
Or going insane
Make's me feel free

Me

Take this mystic seed
Plant it
Within your dream
Beneath where you may succeed
Let it grow

My Bro Charlie

Well I wish I could fly
Into your eye
And defeat all the objects
In your mind...

One Lonely Day

A beggar asked
A preacher
One lonely day

Why did the lord
Take my beloved
Away

The preacher
Answered
Arms open wide

Pray to the lord
The lord
Is your release

'Painless And Free'

They planted the seed in my mind
The idea I struggled to find

I've been loosing sleep
Every time I close my eyes
I'm chasing dreams

Gotta leave this town behind
'Cause no one's shaken my hand

Gotta swim out to the ocean
Into the deep blue (Everton) sea
I'm stuck in old habits
Painless and free

I'm making sense
Of what I've lost
Counting the times
The Wheels spun off

Say goodbye
To all the old faces
With whom I had many
Merry graces

The only way is to
To lead with my heart

Untill I return one day
I still have you uncle Mike (Liverpool)
Forever within my heart...

Dedicated to the late Uncle Mike Rice

Sadam

Helpless he saw a country for war
Worldwide cry as bullets fly

Why O Why
Are we letting them die?
Why O Why
Should we fight you and I?

When I saw the little child's eyes
My thoughts and feelings were in the in the sky

Why O Why
Are we letting them die?
Why O Why
Should we fight you and I?

By dropping the seeds from the sky
The world is revolving from the child's eye

War is power
This war is won...

She Shined So True

A feather makes a whirlwind
Through the shadow
Of my dreams

At ease to my feet
Motionlessness
Fatigue

Into the
Atmosphere
She disappears
Into the light

* *

A distant star
Came into my view
Here face so pure
And beautiful
A power of love

She shined so true
Her arms open wide
She guided me through

Out of the dark
Into the light

Two distant stars
Fall in one night

Someone Tonight

What a day what a night
Another hope of sleeping tight
If I had a wish what would it be?
Not to be cold for people like me

Walking around the streets so cold
Times getting on I'm getting old
Time to rest in this gutter

Morning is coming
I hear the birds flutter
All alone no one to hold
Figuring out which way what's told

I wish I wouldn't be so bold
What a day what a night
I just wanna be near someone tonight

No time to give in time to win...

Standing Out Reality

I'm living in a civilized nation
Seeing true colours of cultural chime

Black or blue white too
All around the globe god bless you

Let's come together
We will fight
Our natural colours with delight

Civilized nation insight
Looking bright as we fight
For freedom and the guilt or racism...

T.V

We save coupon
Just to see our Granny's T.V
So skint you see
We aint got a T.V

We want to run away
We wanna dream of T.V

We are left with books
And poetry

Work Work

Away we go

Over the hill

Across the moor

Into the mill

Grinding our gravestone

With pride 'n pleasure

These dead man's boots

Are made to measure...
